EXCHANGE ACT OF 1934**

For the quarterly period ended March 31, 2022

or

**TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES
EXCHANGE ACT OF 1934**

For the transition period from _____ to _____

Commission File Number: 001-39799

Certara, Inc.

(Exact name of registrant as specified in its charter)

Delaware
(State or other jurisdiction of
incorporation or organization)

82-2180925
(I.R.S. Employer
Identification Number)

100 Overlook Center
Suite 101
Princeton, New Jersey 08540
(Address of Principal Executive Offices)

(609) 716-7900
(Registrant's telephone number)

Securities registered pursuant to Section 12(b) of the Act:

<u>Title of Each Class</u>	<u>Trading symbol</u>	<u>Name of Exchange on which registered</u>
Common stock, par value \$0.01 per share	CERT	The Nasdaq Stock Market LLC

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer
Non-accelerated filer Smaller reporting company Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

As of May 01, 2022, the registrant had 159,841,502 shares of common stock, par value \$0.01 per share, outstanding.

Certara, Inc.

Unless otherwise indicated, references to the “Company,” “Certara,” “we,” “us” and “our” refer to Certara, Inc. and its consolidated subsidiaries.

SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

This Quarterly Report on Form 10-Q (this “Quarterly Report”) contains “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933, as amended (the “Securities Act”), and Section 21E of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), which are subject to the “safe harbor” created by those sections. All statements (other than statements of historical facts) in this Quarterly Report regarding the prospects of the industry and our prospects, plans, financial position and business strategy may constitute forward-looking statements. In addition, forward-looking statements generally can be identified by the use of forward-looking terminology such as “may,” “should,” “expect,” “might,” “intend,” “will,” “estimate,” “anticipate,” “plan,” “believe,” “predict,” “potential,” “continue,” “suggest,” “project” or “target” or the negatives of these terms or variations of them or similar terminology. Although we believe that the expectations reflected in these forward-looking statements are reasonable, we cannot provide any assurance that these expectations will prove to be correct. Such statements reflect the current views of our management with respect to our operations, results of operations and future financial performance. The following factors are among those that may cause actual results to differ materially from the forward-looking statements:

- our ability to compete within our market;
- any deceleration in, or resistance to, the acceptance of model-informed biopharmaceutical discovery;
- the occurrence of natural disasters and epidemic diseases, including the ongoing COVID 19 pandemic, which may result in delays or cancellations of customer contracts or decreased utilization by our employees;
- changes or delays in government regulation relating to the biopharmaceutical industry;
- increasing competition, regulation and other cost pressures within the pharmaceutical and biotechnology industries;
- trends in research and development (“R&D”) spending, the use of third parties by biopharmaceutical companies and a shift toward more R&D occurring at smaller biotechnology companies;
- our ability to successfully enter new markets, increase our customer base and expand our relationships with existing customers;
- our ability to retain key personnel or recruit additional qualified personnel;
- consolidation within the biopharmaceutical industry;
- reduction in the use of our products by academic institutions;
- pricing pressures due to increased customer utilization of our products;
- any delays or defects in our release of new or enhanced software or other biosimulation tools;
- failure of our existing customers to renew their software licenses or any delays or terminations of contracts or reductions in scope of work by our existing customers;
- our ability to accurately estimate costs associated with our fixed-fee contracts;
- risks related to our contracts with government customers, including the ability of third parties to challenge our receipt of such contracts;
- our ability to sustain recent growth rates;
- any future acquisitions and our ability to successfully integrate such acquisitions;
- the accuracy of our addressable market estimates;
- the length and unpredictability of our software and service sales cycles;
- our ability to successfully operate a global business;
- our ability to comply with applicable anti-corruption, trade compliance and economic sanctions laws and regulations;
- risks related to litigation against us;
- the adequacy of our insurance coverage and our ability to obtain adequate insurance coverage in the future;
- our ability to perform our services in accordance with contractual requirements, regulatory standards and ethical considerations;

- the loss of more than one of our major customers;
- our future capital needs;
- the ability or inability of our bookings to accurately predict our future revenue and our ability to realize the anticipated revenue reflected in our backlog;
- any disruption in the operations of the third-party providers who host our software solutions or any limitations on their capacity or interference with our use;
- our ability to reliably meet our data storage and management requirements, or the experience of any failures or interruptions in the delivery of our services over the internet;
- our ability to comply with the terms of any licenses governing our use of third-party open source software utilized in our software solutions;
- any breach of our security measures or unauthorized access to customer data;
- our ability to comply with applicable privacy and data security laws;
- our ability to adequately enforce or defend our ownership and use of our intellectual property and other proprietary rights;
- any allegations that we are infringing, misappropriating or otherwise violating a third party's intellectual property rights;
- our ability to meet the obligations under our current or future indebtedness as they become due and have sufficient capital to operate our business and react to changes in the economy or industry;
- any limitations on our ability to pursue our business strategies due to restrictions under our current or future indebtedness or inability to comply with any restrictions under such indebtedness;
- any impairment of goodwill or other intangible assets;
- our ability to use our net operating loss ("NOLs") and R&D tax credit carryforwards to offset future taxable income;
- the accuracy of our estimates and judgments relating to our critical accounting policies and any changes in financial reporting standards or interpretations;
- any inability to design, implement, and maintain effective internal controls when required by law, or inability to timely remediate internal controls that are deemed ineffective; and
- the other factors described elsewhere in this Quarterly Report on Form 10-Q or as described in our Annual Report on Form 10-K for the fiscal year ended December 31, 2021, or as described in the other documents and reports we file with the Securities and Exchange Commission (the "SEC").

You should not rely upon forward-looking statements as predictions of future events. The forward-looking statements in this Quarterly Report are based on our beliefs, assumptions and expectations of future performance, taking into account the information currently available to us. These statements are only predictions based upon our current expectations and projections about future events. There are important factors, including those described in the section titled "Risk Factors" and elsewhere in this Quarterly Report and in our Annual Report on Form 10-K, that could cause our actual results, level of activity, performance or achievements to differ materially from the results, level of activity, performance or achievements expressed or implied by the forward-looking statements. Moreover, we operate in a very competitive and rapidly changing environment. New risks emerge from time to time and it is not possible for our management to predict all risks, nor can we assess the impact of all factors on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements we may make in this Quarterly Report. Such risk factors may be updated from time to time in our periodic filings with the SEC. Our periodic filings are accessible on the SEC's website at www.sec.gov.

Although we believe that the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee that the future results, levels of activity, performance and events and circumstances reflected in the forward-looking statements will be achieved or occur. The forward-looking statements made in this Quarterly Report relate only to events as of the date on which the statements are made. Except as required by law, we undertake no obligation to update publicly any forward-looking statements for any reason after the date of this Quarterly Report to conform these statements to actual results or to changes in our expectations.

In addition, statements that “we believe” and similar statements reflect our beliefs and opinions on the relevant subject. These statements are based upon information available to us as of the date of this Quarterly Report, and while we believe such information forms a reasonable basis for such statements, such information may be limited or incomplete, and our statements should not be read to indicate that we have conducted an exhaustive inquiry into, or review of, all potentially available relevant information. These statements are inherently uncertain and investors are cautioned not to unduly rely upon these statements.

Channels for Disclosure of Information

Investors and others should note that we may announce material information to the public through filings with the SEC, our Investors Relations website (<https://ir.certara.com>), press releases, public conference calls and public webcasts. We use these channels to communicate with the public about the Company, our products, our services and other matters. We encourage our investors, the media and others to review the information disclosed through such channels as such information could be deemed to be material information. The information on such channels, including on our website, is not incorporated by reference in this Quarterly Report and shall not be deemed to be incorporated by reference into any other filing under the Securities Act or the Exchange Act, except as expressly set forth by specific reference in such a filing. Please note that this list of disclosure channels may be updated from time to time.

CERTARA, INC. AND SUBSIDIARIES

**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(IN THOUSANDS, EXCEPT SHARE AND PER SHARE DATA)
(UNAUDITED)**

1. Description of Business

Certara, Inc. and its wholly-owned subsidiaries (together, the “Company”) deliver software products and technology-driven services to customers to efficiently carry out and realize the full benefits of biosimulation in drug discovery, preclinical and clinical research, regulatory submissions and market access. The Company is a global leader in biosimulation, and the Company’s biosimulation software and technology-driven services help optimize, streamline, or even waive certain clinical trials to accelerate programs, reduce costs, and increase the probability of success. The Company’s regulatory science and market access software and services are underpinned by technologies such as regulatory submissions software, natural language processing, and Bayesian analytics. When combined, these solutions allow the Company to offer customers end-to-end support across the entire product life cycle. On October 1, 2020, the Company amended the certificate of incorporation of EQT Avatar Topco, Inc. to change the name of the Company to Certara, Inc.

The Company has operations in the United States, Canada, Spain, Luxembourg, Portugal, United Kingdom, Germany, France, Netherlands, Denmark, Switzerland, Italy, Poland, Japan, Philippines, India, Australia and China.

2. Summary of Significant Accounting Policies

There have been no changes other than what is discussed herein to the Company’s significant accounting policies as compared to the significant accounting policies described in Note 2 to the Company’s audited consolidated financial statements included in its Annual Report on Form 10-K for the year ended December 31, 2021. These unaudited consolidated financial statements should be read in conjunction with the consolidated financial statements and related notes as of and for the year ended December 31, 2021.

(a) Basis of Presentation and Use of Estimates

The preparation of condensed consolidated financial statements in conformity with U.S. generally accepted accounting principles (“GAAP”) requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, disclosure of contingent assets and liabilities at the date of the condensed consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Significant estimates include, among other estimates, assumptions used in the allocation of the transaction price to separate performance obligations, estimates towards the measure of progress of completion on fixed-price service contracts, the determination of fair values and useful lives of long-lived assets as well as intangible assets, goodwill, allowance for credit losses for accounts receivable, recoverability of deferred tax assets, recognition of deferred revenue, value of interest rate swaps, determination of fair value of equity-based awards and assumptions used in testing for impairment of long-lived assets. Actual results could differ from those estimates, and such differences may be material to the condensed consolidated financial statements.

(b) Unaudited Interim Financial Statements

The accompanying condensed consolidated balance sheet as of March 31, 2022, the condensed consolidated statements of operations and comprehensive loss for the three months ended March 31, 2022 and 2021, the condensed consolidated statements of stockholders’ equity for the three months ended March 31, 2022 and 2021, the condensed consolidated statements of cash flows for the three months ended March 31, 2022 and 2021, and the related interim disclosures are unaudited.

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with U.S. GAAP. These unaudited condensed consolidated financial statements include all adjustments necessary to fairly state the financial position and the results of the Company's operations and cash flows for interim periods in accordance with U.S. GAAP. Interim period results are not necessarily indicative of results of operations or cash flows for a full year or any subsequent interim period. The accompanying condensed consolidated financial statements should be read in conjunction with the Company's 2021 audited consolidated financial statements and notes thereto. The information as of December 31, 2021 in the Company's condensed consolidated balance sheet included herein is derived from the Company's audited consolidated financial statements included in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2021.

(c) Accounting Pronouncements Not Yet Adopted

In November 2021, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2021-10, "Government Assistance (Topic 832): Disclosures by Business Entities about Government Assistance". The ASU requires that entities increase disclosures about government assistance received relating to accounting policy, nature of the assistance, and the effect of the assistance on the financial statements. The ASU is effective for annual periods beginning after December 15, 2021. Early application of the ASU is permitted. The Company is currently evaluating the impact of these amendments on its consolidated financial statements.

(d) Principles of Consolidation

The accompanying condensed consolidated financial statements include the accounts of the Company and its wholly owned subsidiaries. All intercompany balances and transactions have been eliminated in consolidation.

(e) Cash and Cash Equivalents, and Restricted Cash

Cash equivalents include highly liquid investments with maturities of three months or less from the date purchased.

Restricted cash represents cash that is reserved to support a financing program and unexpended restricted grant funds. The restricted cash balance was \$745, \$827 and \$733 at March 31, 2022, December 31, 2021, and March 31, 2021, respectively.

The following table provides a reconciliation of cash and cash equivalents and restricted cash to the amounts presented in the condensed consolidated statements of cash flows:

	MARCH 31, 2022	DECEMBER 31, 2021	MARCH 31, 2021
Cash and cash equivalents	\$ 184,315	\$ 185,797	\$ 272,988
Restricted cash, current	745	827	733
Total cash and cash equivalents and restricted cash	<u>\$ 185,060</u>	<u>\$ 186,624</u>	<u>\$ 273,721</u>

(f) Derivative Instruments

The Company has an interest rate swap agreement that was designated as a cash flow hedge of interest rate risk for a notional amount of \$230,000 that fixed the interest rate at 2.1284%, non-inclusive of the fixed credit spread through May 31, 2022. On August 31, 2021, the Company entered an amendment to the interest rate swap agreement. The amended interest rate swap agreement does not in its entirety meet the definition of a derivative instrument because of its off market fixed rate at inception and is deemed to be a hybrid instrument with a financing component and an embedded at-the-market derivative. Such embedded derivative is bifurcated and accounted for separately. At inception, the financing component of \$1,966 was recorded at amortized cost. The embedded at-the-market derivative was designated and qualified as a cash flow hedge of interest rate risk for a notional amount of \$230,000 that fixed the interest rate at 1.2757%, non-inclusive of the fixed credit spread through May 31, 2022. The fair value of the embedded at-the-market derivative is recognized in

the condensed consolidated balance sheets and the changes in the fair value of the embedded at-the-market derivative is recognized in other comprehensive loss. At March 31, 2022, the financing component is recorded in current portion of interest rate swap liability in the amount of \$439. Due to an other-than-insignificant financing element on a portion of such hybrid instrument, the cash flows associated with this hybrid instrument are classified as financing activities in the condensed consolidated statements of cash flows. At March 31, 2022, the Company recorded the fair value of the embedded at-the-market derivative in current portion of interest rate swap assets in the amount of \$181. The Company did not recognize any changes in the fair value of the interest rate swap in interest expense for the three months ended March 31, 2022.

The following table sets forth the assets that is measured at fair value on a recurring basis by the levels in the fair value hierarchy at March 31, 2022:

	<u>LEVEL 1</u>	<u>LEVEL 2</u>	<u>LEVEL 3</u>	<u>TOTAL</u>
Asset				
Interest rate swap asset	\$ —	\$ 181	\$ —	\$ 181
Total	<u>\$ —</u>	<u>\$ 181</u>	<u>\$ —</u>	<u>\$ 181</u>

The following table sets forth the assets that were measured at fair value on a recurring and non-recurring basis by their levels in the fair value hierarchy at December 31, 2021:

	<u>LEVEL 1</u>	<u>LEVEL 2</u>	<u>LEVEL 3</u>	<u>TOTAL</u>
Asset				
Interest rate swap asset	\$ —	\$ 57	\$ —	\$ 57
Total	<u>\$ —</u>	<u>\$ 57</u>	<u>\$ —</u>	<u>\$ 57</u>

For more information regarding fair value measurement and fair value hierarchy, see NOTE 2. “Summary of Significant Accounting Policies” in the notes to the Consolidated Financial Statements in the Company’s Annual Report on Form 10-K for the fiscal year ended December 31, 2021.

The net amount of deferred losses related to derivative instruments designated as cash flow hedges that is expected to be reclassified from accumulated other comprehensive loss into earnings over the next twelve months is insignificant.

(g) Revenue Recognition

The Company’s revenue consists of fees for perpetual and term licenses for the Company’s software products, post-contract customer support (referred to as maintenance), software as a service (“SaaS”) and professional services including training and other revenue. Revenue is recognized upon transfer of control of promised products or services to customers in an amount that reflects the consideration to which the Company expects to be entitled in exchange for promised goods or services. The Company typically recognizes license revenue at a point in time upon delivering the applicable license. The revenue related to the support and maintenance performance obligation will be recognized on an over-time basis using time elapsed methodology. The revenue related to software training and software implementation performance will be recognized at the completion of the service.

The following describes the accounting policies for multiple performance obligations and the nature of the Company’s primary types of revenues and the revenue recognition policies as they pertain to the types of transactions the Company enters into with its customers.

Arrangements with Multiple Performance Obligations

For contracts with multiple performance obligations, the Company determines if the products or services are distinct and allocates the consideration to each distinct performance obligation on a relative standalone selling price basis. When products and services are not distinct, the Company determines an appropriate measure of progress based on the nature of its overall promise for the single performance obligation. The delivery of a particular type of software and each of the user licenses would be one performance obligation. However, any training, implementation, or support and maintenance promises as part of the software license agreement would be considered separate performance obligations, as those promises are distinct and separately identifiable from the software licenses. The payment terms in these arrangements are sufficiently short such that there is no significant financing component to the transaction.

Software Licenses and Support

License revenue includes perpetual license fees and term license fees, which provide customers with the same functionality and differ mainly in the duration over which the customer benefits from the use of software. Both revenues from perpetual license and term license performance obligations are generally recognized upfront at the point in time when the software license has been delivered.

Software Services

For contracts that include multiple performance obligations, such as a software license plus software training, implementation, and/or maintenance/support, or in contracts where there are multiple software licenses, the transaction price is allocated to each of the performance obligations on a pro-rata basis based on the relative standalone selling price (“SSP”) of each performance obligation. Maintenance services agreements consist of fees for providing software updates and for providing technical support for software products for a specified term. Revenue allocated to maintenance services is recognized ratably over the contract term beginning on the delivery date of each offering. Maintenance contracts generally have a term of one year. Expenses related to maintenance and subscription are recognized as incurred. While transfer of control of the software training and implementation performance obligations are over time, the services are typically started and completed within a few days. Due to the quick nature of the performance obligation from start to finish and the immaterial amounts, the Company recognizes any software training or implementation revenue at the completion of the service. Any unrecognized portion of amounts paid in advance for licenses and services is recorded as deferred revenue. Certara’s software contracts do not typically include discounts, variable consideration, or options for future purchases that would not be similar to the original goods.

Subscription Revenues

Subscription revenues consists of subscription fees for access to, and related support for, our cloud-based solutions. The Company typically invoices subscription fees in advance in annual installments and recognizes subscription revenue ratably over the term of the applicable agreement, usually one to three years which is initially deferred and recognized ratably over the life of the contract.

Services and Other Revenues

The Company’s primary services offering includes consulting services, which may be either strategic consulting services, reporting and analysis services, regulatory writing services, or any combination of the three. Strategic consulting services consists of consulting, training, and process redesign that enables customers to identify which uncertainties are greatest and matter most and then to design development programs, trial sequences, and individual trials in such a way that those trials systematically reduce the identified uncertainties in the most rapid and cost-effective manner possible.

The Company’s professional services contracts are either time-and-materials, fixed fee or prepaid. Services revenues are generally recognized over time as the services are performed. Generally, these services are delivered to customers electronically. Revenue from time-and-material contracts is recognized on an output basis as labor hours are delivered and/or direct expenses are incurred. Revenues for fixed price services and prepaid are generally recognized over time applying input methods to estimate progress to completion. Accordingly, the number of resources being paid for and

varying lengths of time they are being paid for, determine the measure of progress. Training revenues are recognized as the services are performed over time. However, due to short period over which the transfer of control occurs for a classroom or on-site training course, the revenue related to these performance obligations is recognized at the completion of the course for administrative feasibility purposes. The training services generally do not provide for any non-cash consideration nor is there consideration payable to a customer.

Contract Balances

The timing of revenue recognition, billings and cash collections results in billed accounts receivable, unbilled receivables (contract assets), and customer advances and deposits (deferred revenue, contract liabilities) on the Consolidated Balance Sheets. Amounts are billed as work progresses in accordance with agreed-upon contractual terms, either at periodic intervals (e.g., quarterly or monthly) or upon achievement of contractual milestones.

Contract assets relate to the Company's rights to consideration for performance obligations satisfied but not billed at the reporting date on contracts (i.e., unbilled revenue, a component of accounts receivable in the Consolidated Balance Sheets). Contract assets are billed and transferred to customer accounts receivable when the rights become unconditional. The Company typically invoices customers for term licenses, subscriptions, maintenance and support fees in advance with payment due before the start of the subscription term, ranging from one to three years. The Company records the amounts collected in advance of the satisfaction of performance obligations, usually over time, as a contract liability or deferred revenue. Invoiced amounts for non-cancelable services starting in future periods are included in contract assets and deferred revenue. The portion of deferred revenue that will be recognized within 12 months is recorded as current deferred revenue, and the remaining portion is recorded as non-current deferred revenue in the Consolidated Balance Sheets.

The unsatisfied performance obligations as of March 31, 2022 were approximately \$101,246.

Deferred Contract Acquisition Costs

Under ASC 606, sales commissions paid to the sales force and the related employer payroll taxes, collectively "deferred contract acquisition costs", are considered incremental and recoverable costs of obtaining a contract with a customer. The Company has determined that sales commissions paid are an immaterial component of obtaining a customer's contract and has elected to expense sales commissions when paid.

Sources and Timing of Revenue

The Company's performance obligations are satisfied either over time or at a point in time. The following table presents the Company's revenue by timing of revenue recognition to understand the risks of timing of transfer of control and cash flows:

	THREE MONTHS ENDED MARCH 31,	
	2022	2021
Software licenses transferred at a point in time	\$ 13,452	\$ 12,425
Software licenses transferred over time	15,741	9,479
Service revenues earned over time	52,358	44,814
Total	<u>\$ 81,551</u>	<u>\$ 66,718</u>

(h) Earnings per Share

Basic earnings per common share is computed by dividing the net income that is attributable to common stockholders by the weighted-average number of common shares outstanding during the reporting period, without consideration for potentially dilutive securities. The dilutive effect of potentially dilutive securities is excluded from basic earnings per share

and is included in the calculation of diluted earnings per share. Restricted stock and restricted stock units granted by the Company are treated as potential common shares outstanding in computing diluted earnings per share.

Diluted earnings per share is computed by dividing the earnings attributable to stockholders by the weighted-average number of shares and potentially dilutive securities outstanding during the period.

(i) COVID-19

Since the first quarter of 2020, the COVID-19 pandemic has posed a significant threat to public health as well as the global and U.S. economies. The continued spread of variants of COVID-19 may adversely impact our business, financial condition or results of operations as a result of increased costs, negative impacts to our workforce, delay or cancellation of projects due to disruption of clinical trials, or a sustained economic downturn. Although the spread of the virus seems to have subsided, the possibility of a resurgence due to a new strain is possible. Given its ongoing and dynamic nature, it is difficult to predict the full impact of the COVID-19 outbreak on the global and US economy and our business.

3. Public Offerings

The Company is party to a registration rights agreement with EQT AB and its affiliates (“EQT AB”), Arsenal, EQT, and certain other stockholders (“Institutional Investors”). It contains provisions that entitle EQT and the other Institutional Investors thereto to certain rights to have their securities registered by the Company under the Securities Act. EQT is entitled to an unlimited number of “demand” registrations, subject to certain limitations. Every Institutional Investor that holds registration rights is also be entitled to customary “piggyback” registration rights. In addition, the amended and restated registration rights agreement provides that the Company will pay certain expenses of the Institutional Investors relating to such registrations and indemnify them against certain liabilities which may arise under the Securities Act of 1933.

The registration rights agreement will terminate (i) with the prior written consent of the Institutional Investors in connection with a change of control; (ii) for those holders (other than the Institutional Investors) that beneficially own less than 5% of the Company’s outstanding shares, if all of the registrable securities then owned by such holder could be sold in any 90-day period pursuant to Rule 144; (iii) as to any holder, if all of the registrable securities held by such holder have been sold or otherwise transferred in a registration pursuant to the Securities Act or pursuant to an exemption therefrom; or (iv) with respect to any holder that is an officer, director, employee or consultant of the Company on the date that is 90 days after the date on which such holder ceases to be an employee, director or consultant (as applicable) of the Company. The rights and obligations do not transfer without the written consent of the Company and the Institutional Investors.

On March 29, 2021, the Company completed an underwritten secondary public offering in which certain selling stockholders, including EQT, sold 11,500,000 shares of the Company’s common stock, including 1,500,000 shares of common stock pursuant to the full exercise of the underwriters’ option to purchase additional shares. The Company did not offer any common stock in this transaction and did not receive any proceeds from the sale of the shares of common stock by the selling stockholders. The Company incurred costs of \$1,100, recorded in general and administrative expenses, in relation to the secondary public offering.

On September 13, 2021, the Company completed another public offering, at a public offering price of \$31.00 per share, pursuant to which the Company sold 4,500,000 shares of its common stock, and certain selling stockholders sold 18,500,000 shares of the Company’s common stock, including an additional 3,000,000 shares of common stock pursuant to the full exercise of the underwriters’ option to purchase additional shares. The Company received net proceeds of \$134,096, after deducting underwriters’ discounts and commissions. In addition, \$745 of legal, accounting and other offering costs incurred in connection with the sale of the Company’s common stock in the public offering, were capitalized and offset against the proceeds received.

On November 22, 2021, the Company completed another secondary public offering in which certain selling stockholders, including EQT, sold 10,000,000 shares of the Company’s common stock. The Company did not offer any common stock

in this transaction and did not receive any proceeds from the sale of the shares of common stock by the selling stockholders. The Company incurred costs of \$644, recorded in general and administrative expenses, in relation to the secondary public offering.

4. Concentrations of Credit Risk

Financial instruments that potentially subject the Company to concentrations of credit risk have consisted principally of cash and cash equivalent investments and trade receivables. The Company invests available cash in bank deposits, investment-grade securities, and short-term interest-producing investments, including government obligations and other money market instruments. At March 31, 2022 and December 31, 2021, the investments were bank deposits and overnight sweep accounts. The Company has adopted credit policies and standards to evaluate the risk associated with sales that require collateral, such as letters of credit or bank guarantees, whenever deemed necessary. Management believes that any risk of loss is significantly reduced due to the nature of the customers and distributors with which the Company does business.

As of March 31, 2022 and December 31, 2021, no single customer accounted for more than 10% of the Company's accounts receivable. No customers accounted for more than 10% of the Company's revenues during the three months ended March 31, 2022 and 2021.

5. Acquisitions

Acquisitions have been accounted for using the acquisition method of accounting pursuant to FASB ASC 805, "Business Combinations." Amounts allocated to the purchased assets and liabilities are based upon the total purchase price and the estimated fair values of such assets and liabilities on the effective date of the purchase as determined by an independent third party. The results of operations have been included in the Company's results of operations prospectively from the date of acquisition.

Author! B.V.

On March 2, 2021, the Company completed a transaction which qualified as a business combination for a total consideration of \$2,667. The business combination was not material to our consolidated financial statements. Based on the Company's purchase price allocation, approximately \$1,200, \$100 and \$1,200 of the purchase price was assigned to customer relationships, non-compete agreements and goodwill, respectively.

Insight Medical Writing Limited

On June 7, 2021, the Company completed a transaction which qualified as a business combination for a total consideration of \$15,197. The business combination was not material to our consolidated financial statements. Based on the Company's purchase price allocation, approximately \$7,400 and \$4,700 of the purchase price was assigned to customer relationships and goodwill, respectively.

Pinnacle 21, LLC

On October 1, 2021, the Company acquired 100% of the equity of Pinnacle 21, LLC ("Pinnacle"). Pinnacle provides software and services for preparing clinical trial data for regulatory submission. The acquisition executes on the Company's strategy to invest in innovation to increase the use cases of biosimulation and grow adoption of Certara's end-to-end platform.

The acquisition of Pinnacle was treated as a purchase in accordance with ASC 805, "Business Combinations", which requires allocation of the purchase price to the estimated fair values of assets and liabilities acquired in the transaction.

The following table summarizes the fair value of the consideration paid as well as the fair values of the assets acquired and liabilities assumed as of the date of the acquisition:

	Pinnacle
Fair value of consideration:	
Cash paid to sellers	\$ 249,115
Cash paid to others and escrow	17,200
Unregistered shares of Certara, Inc. (2,239,717 shares)	72,760
Total consideration	<u>\$ 339,075</u>
Assets acquired and liabilities assumed:	
Cash and cash equivalents	\$ 19,409
Accounts receivable	2,925
Other current assets	619
Property and equipment	258
Deferred tax assets	2,907
Identifiable intangible assets:	
Trademark	15,800
Acquired software	103,000
Customer relationships	24,600
Goodwill	180,947
Long-term deposits	34
Current liabilities	(794)
Current portion of deferred revenue	(10,630)
Net assets acquired	<u>\$ 339,075</u>

The fair value of the unregistered shares given as part of the purchase consideration was determined based on the market price of Certara stock on the closing date less a 7% discount for lack of marketability.

The acquisition was structured as an asset acquisition for income tax purposes; therefore, the Company's tax basis in Pinnacle's identifiable assets reflects the fair value of consideration paid. However, the company did not recognize tax basis in certain liabilities assumed at the acquisition date; resulting in deferred income taxes being recorded in purchase accounting.

The fair value of the intangible assets is based on significant inputs that are not observable in the market and, therefore, represent Level 3 measurements within the fair value measurement hierarchy. The fair value of the customer relationships (Distributor method), trademarks (Relief from Royalty method) and developed technology (Multi-Period Excess Earnings Method) was determined under the income approach.

Goodwill of \$180,947 was recorded to reflect the excess of the purchase price over the estimated fair value of the net identifiable assets acquired, which is generally deductible for income tax purposes. The excess of the purchase prices over the fair values of the acquired business's net assets represent cost and revenue synergies specific to the Company, as well as non-capitalizable intangible assets, such as the employee workforces acquired, and has been allocated to goodwill.

Integrated Nonclinical Development Solutions

On January 3, 2022, the Company completed the acquisition of Integrated Nonclinical Development Solutions, Inc. (“INDS”), a company that provides the SEND Explorer software and drug development consulting for a total consideration of \$8,148. The business combination was not material to the Company’s condensed consolidated financial statements. Based on the Company’s preliminary purchase price allocation, approximately \$2,500, \$860 and \$2,855 of the purchase price was assigned to customer relationships, acquired software and goodwill, respectively.

The current purchase price allocation is preliminary. The primary areas of the preliminary purchase price allocations that are not yet finalized relate to the fair value of certain tangible and intangible assets acquired, and liabilities assumed, and residual goodwill. The Company expects to continue to obtain information to assist in determining the fair values of the net assets acquired at the acquisition date during the measurement period. Any adjustments to the preliminary purchase price allocation identified during the measurement period, which will not exceed one year from the acquisition date, will be accounted for prospectively.

The condensed consolidated financial statements include the operating results of each acquisition from the date of acquisition. Pro forma results of operations revenue and net income subsequent to the acquisition date for three months ended March 31, 2022 have not been presented because the effects of the acquisition was not material to our financial results.

6. Prepaid Expenses and Other Current Assets and Other Supplemental Assets Information

	March 31, 2022	December 31, 2021
Prepaid expenses	\$ 8,580	\$ 8,973
Income tax receivable	4,945	4,800
Research and development tax credit receivable	2,702	3,951
Current portion of interest rate swap asset	181	57
Other current assets	999	767
Prepaid expenses and other current assets	<u>\$ 17,407</u>	<u>\$ 18,548</u>

Other long-term assets consisted of the following:

	March 31, 2022	December 31, 2021
Long-term deposits	\$ 1,161	\$ 1,160
Deferred financing cost	937	1,007
Total other long-term assets	<u>\$ 2,098</u>	<u>\$ 2,167</u>

7. Long-Term Debt and Revolving Line of Credit

Effective August 14, 2017, the Company entered into a credit agreement with lenders for a \$250,000 term loan (“Credit Agreement”). The Credit Agreement is a syndicated arrangement with various lenders providing the financing. The \$250,000 term loan is due to mature on August 14, 2024. The Company also entered into a \$20,000 revolving line of credit with lenders with a sub-commitment for issuance of letters of credit of \$10,000.

The Company and lenders entered into Amendment No. 1 to the Credit Agreement on January 25, 2018, where an additional tranche of \$25,000 was added to the term loan. The amortization schedule of the new tranche was made coterminous with the rest of the term loan. There were no other changes to the terms of the Credit Agreement.

[Table of Contents](#)

The Company and lenders entered into Amendment No. 2 to the Credit Agreement on April 3, 2018, where an additional tranche of \$40,000 was added to the term loan. The amortization schedule of the new tranche was made coterminous with the rest of the term loan. There were no other changes to the terms of the Credit Agreement.

The Company and lenders entered into a third amended and restated loan agreement on June 17, 2021 (“Third Amendment”), which provides for, among other things, (i) the extension of the termination date applicable to the revolving credit commitments under the Credit Agreement to August 2025, (ii) the extension of the maturity date applicable to the term loans under the Credit Agreement to August 2026, and (iii) an increase of approximately \$80,000 in commitments available under the revolving line of credit (resulting in an aggregate amount of commitments of \$100,000). The term loan under the Third Amendment has substantially the same terms as the existing term loans and revolving credit commitments. The Credit Agreement is collateralized by substantially all U.S. assets and stock pledges for the non-U.S. subsidiaries and contain various financial and nonfinancial covenants.

As of March 31, 2022 and December 31, 2021, available borrowings under the revolving lines of credits were \$100,000. Available borrowings under the revolving lines of credits as of March 31, 2022 and December 31, 2021 were reduced by \$120 and \$239 standby letters of credit issued to a landlord in lieu of a security deposit in addition to any outstanding borrowings.

The Company was in compliance with all financial covenants as of March 31 2022 and December 31, 2021. Borrowings under the Credit Agreement are subject to a variable interest rate at LIBOR plus a margin. The applicable margins are based on achieving certain levels of compliance with financial covenants.

The effective interest rate was 3.64% and 3.75% for the three months ended March 31, 2022 and 2021 for the term loan debt, respectively. As discussed previously, the Company entered into interest rate swap agreements to mitigate the interest risk.

Interest incurred on the Credit Agreement with respect to the term loan amounted to \$2,737 and \$2,854 for the three months ended March 31, 2022 and 2021, respectively. Accrued interest payable on the Credit Agreement with respect to the term loan amounted to \$33 and \$30 at March 31, 2022 and December 31, 2021, respectively, and is included in accrued expenses. Interest incurred on the Credit Agreement with respect to the revolving line of credit was \$63 and \$12 for the three months ended March 31, 2022 and 2021, respectively. There was \$1 and \$66 accrued interest payable on the revolving line of credit at March 31, 2022 and December 31, 2021, respectively.

Long-term debt consists of the following:

	MARCH 31, 2022	DECEMBER 31, 2021
Term loans	\$ 299,735	\$ 300,490
Revolving line of credit	—	—
Less: debt issuance costs	(5,407)	(5,724)
Total	294,328	294,766
Current portion of long-term debt	(3,020)	(3,020)
Long-term debt, net of current portion and debt issuance costs	\$ 291,308	\$ 291,746

The principal amount of long-term debt outstanding as of March 31, 2022 matures in the following years:

	Remainder of 2022	2023	2024	2025	2026	TOTAL
Maturities	\$ 2,265	\$ 3,020	\$ 3,020	\$ 3,020	\$ 288,410	\$ 299,735

The Credit Agreement requires the Company to make an annual mandatory prepayment as it relates to the Company’s Excess Cash Flow calculation. For the year ended December 31, 2021, the Company was not required to make a mandatory

prepayment on the term loan. For the credit agreement, the Company is required to make a quarterly principal payment of \$755 on the term loan each quarter starting from the end of September 2021.

The fair values of the Company's variable interest term loan and revolving line of credit are not significantly different than their carrying value because the interest rates on these instruments are subject to change with market interest rates.

8. Leases

The Company leases certain office facilities and equipment under non-cancelable operating and finance leases with remaining terms from one to six years.

Operating lease ROU assets are included in other asset section while finance lease ROU assets are included in "Property and equipment, net" in the condensed consolidated balance sheets. With respect to operating lease liabilities, current lease liabilities and non-current operating lease liabilities are included in "Current operating lease liabilities" and "Operating lease liabilities, net of current portion". Current finance lease liabilities and non-current finance lease liabilities are included in "Other current liabilities" and "Non-current finance lease liabilities" in the condensed consolidated balance sheets. At March 31, 2022, The weighted average remaining lease terms were 3.63 years and 0.83 year for operating and finance lease, respectively; the weighted average discount rate were 4.08% and 6.19% for operating and finance lease, respectively. For additional information on the Company's leases, see Note 14 to the Consolidated Financial Statements included in the 2021 Annual Report on Form 10-K.

The following table summarizes the lease-related assets and liabilities recorded in the consolidated balance sheets at March 31, 2022 and December 31, 2021:

<u>Lease Position</u>	<u>Balance Sheet Classification</u>	<u>March 31, 2022</u>	<u>December 31, 2021</u>
<u>Assets</u>			
Operating lease assets	Operating lease right-of-use assets	\$ 13,631	\$ 12,634
Finance lease assets	Property and equipment, net	202	271
Total lease assets		<u>\$ 13,833</u>	<u>\$ 12,905</u>
<u>Liabilities</u>			
Current			
Operating	Current operating lease liabilities	\$ 4,897	\$ 5,040
Finance	Other current liabilities	246	293
Noncurrent			
Operating	Operating lease liabilities, net of current portion	9,348	8,256
Finance	Non-current finance lease liabilities	—	25
Total lease liabilities		<u>\$ 14,491</u>	<u>\$ 13,614</u>

The following table summarizes by year the maturities of our minimum lease payments as of March 31, 2022.

	OPERATING LEASES	FINANCE LEASES
Remainder of 2022	\$ 3,936	\$ 228
2023	4,019	25
2024	3,341	—
2025	2,551	—
2026	1,359	—
Thereafter	133	—
Total future lease payments	15,339	253
Less: imputed interest	(1,094)	(7)
Total	\$ 14,245	\$ 246

9. Accrued Expenses and Other Supplemental Liabilities Information

Accrued expenses consist of the following:

	March 31, 2022	December 31, 2021
Accrued compensation	\$ 14,731	\$ 24,848
Legal and professional accruals	1,110	2,477
Local sales and VAT taxes	16	—
Interest payable	36	96
Income taxes payable	1,067	1,398
Accrued business acquisition liabilities	700	—
Other	932	1,011
Total accrued expenses	\$ 18,592	\$ 29,830

Other current liabilities consist of the following:

	March 31, 2022	December 31, 2021
Current portion of interest rate swap liability	\$ 439	\$ 1,088
Current finance lease liabilities	246	293
Total other current liabilities	\$ 685	\$ 1,381

10. Equity-Based Compensation

Restricted Stock

The majority of the company's restricted stock awarded to its employees were originally issued in December 2020 to exchange the Class B Profits Interest Unit (the "Class B Plan") of EQT, former parent of the Company.

Modification accounting was not required for the time-based vesting Class B Units for which the vesting conditions, classification and fair market value did not change as a result of the shares of restricted common stock that replaced them. The original grant date fair value will continue to be recognized on a straight-line basis. Modification accounting was

required for the performance-based vesting Class B Units that were exchanged for time-based vesting restricted common stock, given the vesting conditions were changed.

Share based compensation for the restricted stock exchanged for the time-based Class B Units is recognized on a straight-line basis over the requisite service period of the award, which is generally five years. Share-based compensation for the restricted stock exchanged for the performance-based Class B Units is recognized using the accelerated attribution approach.

In 2021, the Company granted 87,127 replacement shares of restricted stock in connection with the Pinnacle business acquisition under which equity-based awards are outstanding. The fair value of the per share of restricted stock issued in 2021 was measured using grant date fair market value adjusted lack of marketability for these shares. Total grant date fair value was \$2,762. The restricted stock issued in 2021 generally have a three year vesting period except for one holder whose shares vests equally on a monthly basis for 2 years.

	<u>SHARES</u>	<u>WEIGHTED- AVERAGE GRANT DATE FAIR VALUE</u>
Non-vested restricted stock as of December 31, 2021	3,910,722	\$ 23.18
Granted	—	—
Vested	(328,138)	23.17
Forfeited	—	—
Non-vested restricted stock as of March 31, 2022	<u>3,582,584</u>	<u>\$ 23.18</u>

The Company did not authorize or issue any restricted stock during the three-month period ended March 31, 2022. The number of the restricted stock vested includes 1,774 shares of common stock that were withheld on behalf of employees to satisfy the statutory tax withholding requirements.

Equity-based compensation expenses related to the restricted stock exchanged for Performance-based Class B Units were \$2,120 and \$4,041 for the three months ended March 31, 2022 and 2021, respectively. At March 31, 2022, the total unrecognized equity-based compensation expense related to outstanding restricted stock recognized using the accelerated attribution approach was \$9,518, which is expected to be recognized over a weighted-average period of 23.4 months.

Equity-based compensation expenses related to the restricted stock exchanged for Time-based Class B Units were \$766 and \$777 for the three months ended March 31, 2022 and 2021, respectively. At March 31, 2022, the total unrecognized equity-based compensation expense related to outstanding restricted stock recognized using the straight-line attribution approach was \$5,628, which is expected to be recognized over a weighted-average period of 31.2 months.

Equity-based employee compensation expense related to the time-based restricted stock for the Pinnacle acquisition was \$292 for the three months ended March 31, 2022. At March 31, 2022, the total unrecognized equity-based compensation expenses related to outstanding restricted stock recognized using the straight-line attribution approach was \$2,178, which is expected to be recognized over a weighted-average period of 23.8 months.

2020 Incentive Plan

In order to align our equity compensation program with public company practices, the Company's Board of Directors adopted and stockholders approved the 2020 Incentive Plan. The 2020 Incentive Plan allows for grants of non-qualified stock options, incentive stock options, restricted stock, and restricted stock units (RSUs) to employees, directors and officers, and consultants or advisors of the Company. The 2020 Incentive Plan allows for 20,000,000 shares (the "plan share reserve") of common stock to be issued. No more than the number of shares of common stock equal to the plan share reserve may be issued in the aggregate pursuant to the exercise of incentive stock options. The maximum number of shares of common stock granted during a single fiscal year to any non-employee director, taken together with any cash fees paid to such non-employee director during the fiscal year, may not exceed \$1,000,000 in total value, except for certain awards made to a non-executive chair of our board of directors.

Restricted Stock Units

Restricted stock units ("RSUs") represent the right to receive shares of the Company's common stock at a specified date in the future. The fair value of the RSUs is based on the fair value of the underlying shares on the date of grant.

A summary of the Company's RSU activity is as follows:

	UNITS	WEIGHTED- AVERAGE GRANT DATE FAIR VALUE
Non-vested RSUs as of December 31, 2021	1,288,724	\$ 29.28
Granted	12,243	21.08
Vested	—	—
Forfeited	(7,666)	29.51
Non-vested RSUs as of March 31, 2022	<u>1,293,301</u>	<u>\$ 29.20</u>

Equity-based compensation expenses related to the RSUs were \$3,388 and \$333 for three months ended March 31, 2022 and 2021, respectively. At March 31, 2022, the total unrecognized equity-based compensation expense related to outstanding RSUs was \$26,557, which is expected to be recognized over a weighted-average period of 25.9 months.

Performance Stock Units

Performance stock units ("PSUs") are issued under the 2020 Incentive Plan and represent the right to receive shares of the Company's common stock at a specified date in the future based on the satisfaction of various service conditions and the achievement of certain performance thresholds including year over year revenue growth and unlevered free cash flow growth.

Share-based compensation for the PSUs is only recognized to the extent a threshold is probable of being achieved and is recognized using the accelerated attribution approach. The Company will continue to assess the probability of each condition being achieved at each reporting period to determine whether and when to recognize compensation cost. The following table presents a summary of activity on the PSUs for the period ended March 31, 2022.

A summary of the Company’s PSU activity is as follows:

	UNITS	WEIGHTED- AVERAGE GRANT DATE FAIR VALUE
Non-vested PSUs as of December 31, 2021	406,575	\$ 27.35
Granted	—	—
Vested	—	—
Forfeited	—	—
Non-vested PSUs as of March 31, 2022	406,575	\$ 27.35

Equity-based compensation expense related to the PSUs was \$947 for the three months ended March 31, 2022. At March 31, 2022, the total unrecognized equity-based compensation expense related to outstanding PSUs was \$4,382, which is expected to be recognized over a weighted-average period of 17.3 months.

Under 2020 Incentive Plan, in April 2022, the Company issued performance stock units to certain employees to receive shares of the Company’s common stock at a specified date in the future on the satisfaction of various service conditions and the achievement of certain performance thresholds including year over year revenue growth and unlevered free cash flow growth. Certain terms in this award were modified from 2021 award of performance stock units.

The following table summarizes the components of total equity-based compensation expense included in the condensed consolidated statements of operations and comprehensive loss for each period presented:

	THREE MONTHS ENDED MARCH 31,	
	2022	2021
Cost of revenues	\$ 1,723	\$ 840
Sales and marketing	660	398
Research and development	1,373	399
General and administrative expenses	3,757	3,514
Total	\$ 7,513	\$ 5,151

2020 Employee Stock Purchase Plan

On December 10, 2020, stockholders approved the 2020 Employee Stock Purchase Plan (the “Employee Stock Purchase Plan”). Under the Employee Stock Purchase Plan, employees, and those of the Company’s subsidiaries, may purchase shares of common stock, during pre-specified offering periods. Named executive officers will be eligible to participate in the Employee Stock Purchase Plan on the same terms and conditions as all other participating employees. The maximum number of shares authorized for sale under the Employee Stock Purchase Plan is 1,700,000 shares.

As of March 31, 2022, no shares of common stock have been purchased under the Employee Stock Purchase Plan and no offering has been made to eligible employees under the Plan.

11. Segment Data

Operating segments are defined as components of an enterprise about which separate financial information is available that is evaluated regularly by the chief operating decision maker (“CODM”), in deciding how to allocate resources and in assessing performance.

The Company has determined that its chief executive officer is its CODM. The Company manages its operations as a single segment for the purposes of assessing and making operating decisions. The Company's CODM allocates resources and assesses performance based upon financial information at the consolidated level. Since the Company operates in one operating segment, all required financial segment information can be found in the condensed consolidated financial statements.

The following table summarizes revenue by geographic area for the three months ended March 31, 2022 and 2021:

	THREE MONTHS ENDED MARCH 31,	
	2022	2021
Revenue ⁽¹⁾ :		
Americas	\$ 59,784	\$ 46,574
EMEA	15,934	14,226
Asia Pac	5,833	5,918
Total	<u>\$ 81,551</u>	<u>\$ 66,718</u>

(1) Revenue is attributable to the countries based on the location of the customer.

12. Income Taxes

The Company generally records its interim tax provision based upon a projection of the Company's estimated annual effective tax rate ("EAETR"). This EAETR is applied to the year-to-date consolidated pre-tax income to determine the interim provisions for income taxes before discrete items. The effective tax rate ("ETR") each period is impacted by a number of factors, including the relative mix of domestic and international earnings, adjustments to the valuation allowances, and discrete items. The currently forecasted ETR may vary from the actual year-end due to the changes in these factors.

The Company's global ETR for the three months ended March 31, 2022 and 2021 were 41% and 33%, respectively, including discrete tax items. The current year increase in the ETR was principally due to the relative mix of domestic and international earnings.

13. Earnings per Share

Earnings per share is computed by dividing net income by the weighted-average common shares outstanding. Basic earnings per common share is computed by dividing net income available to common shareholders by the weighted-average number of common shares outstanding during the period. Diluted earnings per common share considers potentially dilutive securities outstanding during the period.

Basic and diluted earnings per share is computed by dividing net income by the weighted-average common shares outstanding:

	THREE MONTHS ENDED MARCH 31,	
	2022	2021
Numerator:		
Net income available to common shareholders	\$ 2,210	\$ 1,052
Denominator:		
Basic weighted average common shares outstanding	155,936,953	147,160,084
Effects of dilutive securities	3,223,368	4,924,661
Diluted weighted average common shares outstanding	159,160,321	152,084,745
Earnings per share:		
Basic	\$ 0.01	\$ 0.01
Diluted	\$ 0.01	\$ 0.01

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations

The following discussion summarizes the significant factors affecting the operating results, financial condition, liquidity, and cash flows of our Company as of and for the periods presented below. The following discussion and analysis should be read in conjunction with the unaudited condensed consolidated financial statements and the related notes thereto included elsewhere in this Quarterly Report and our Annual Report on Form 10-K for the fiscal year ended December 31, 2021. The statements in this discussion regarding industry outlook, our expectations regarding our future performance, liquidity, and capital resources, and all other non-historical statements in this discussion are forward-looking statements and are based on the beliefs of our management, as well as assumptions made by, and information currently available to, our management. Actual results could differ materially from those discussed in or implied by forward-looking statements as a result of various factors, including those discussed below and elsewhere in this Quarterly Report, particularly in the sections entitled “Special Note Regarding Forward-Looking Statements” and “Risk Factors” of this Quarterly Report.

We intend the discussion of our financial condition and results of operations that follows to provide information that will assist the reader in understanding our Consolidated Financial Statements, the changes in certain key items in those financial statements from period to period, and the primary factors that accounted for those changes, as well as how certain accounting principles, policies and estimates affect our Consolidated Financial Statements.

Executive Overview

We accelerate medicines to patients using biosimulation software, technology, and services to transform traditional drug discovery and development. Biosimulation is a powerful technology used to conduct virtual trials using virtual patients to predict how drugs behave in different individuals. Biopharmaceutical companies use our proprietary biosimulation software throughout drug discovery and development to inform critical decisions that not only save significant time and money but also advance drug safety and efficacy, improving millions of lives each year.

As a global leader in biosimulation based on 2021 revenue, we provide an integrated, end-to-end platform used by more than 2,000 clients including biopharmaceutical companies, regulatory agencies and academic institutions across 62 countries, including 38 of the top 40 biopharmaceutical companies by R&D spend in 2020. Since 2014, customers who use our biosimulation software and technology-driven services have received 90% of all new drug approvals by the FDA. Moreover, 17 global regulatory authorities license our biosimulation software to independently analyze, verify, and review regulatory submissions, including the FDA, Health Canada, Japan’s PMDA, and China’s NMPA. Demand for our offerings continues to expand rapidly.

We build our biosimulation technology on first principles of biology, chemistry, and pharmacology with proprietary mathematical algorithms that model how medicines and diseases behave in the body. For over two decades, we have honed and validated our biosimulation technology with an abundance of data from scientific literature, lab research, and preclinical and clinical studies. In turn, our customers use biosimulation to conduct virtual trials to answer critical questions, such as: What will be the human response to a drug based on preclinical data? How will other drugs interfere with this new drug? What is a safe and efficacious dose for children, the elderly, or patients with pre-existing conditions? Virtual trials may be used to optimize dosing on populations that are otherwise difficult to study for ethical or logistical reasons, such as infants, pregnant women, the elderly, and cancer patients.

Biosimulation results need to be incorporated into regulatory documents for compelling submissions. Accordingly, we provide regulatory science solutions and integrate them with biosimulation so that our customers can navigate the complex and evolving regulatory landscape and maximize their chances of approval. Our differentiated regulatory services are powered by submissions management software and natural language processing for scalability and speed, allowing us to deliver more than 250 regulatory submissions over the past four years. Our team of regulatory professionals has extensive experience applying industry guidelines and global regulatory requirements.

The final hurdle to delivering medicines to patients is market access, defined as strategies, processes, and activities to ensure that therapies are available to patients at the right price. We believe that biosimulation and market access will continue to be increasingly intertwined as health systems and countries move toward outcomes-based pricing. We have expanded into market access solutions, which help our customers understand the real-world impact of therapies and dosing regimens earlier in the process and effectively communicate this to payors and health authorities. Our solutions are underpinned by SaaS-based value communication tools.

With continued innovation in and adoption of our biosimulation software, technology, and services, we believe more biopharmaceutical companies worldwide will leverage more of our end-to-end platform to reduce cost, accelerate speed to market, and ensure safety and efficacy of medicines for all patients.

Public Offering

On March 29, 2021, we completed an underwritten secondary public offering in which certain selling stockholders, including EQT, sold 11,500,000 shares of our common stock, which included 1,500,000 shares of common stock pursuant to the full exercise of the underwriters' option to purchase additional shares. We did not offer any common stock in this transaction and did not receive any proceeds from the sale of the shares of common stock by the selling stockholders. We incurred cost of \$1.1 million in relation to the secondary public offering.

On September 13, 2021, we completed another public offering, at a public offering price of \$31.00 per share, pursuant to which we sold 4,500,000 shares of our common stock, and certain selling stockholders sold 18,500,000 shares of our common stock, which included 3,000,000 shares of common stock pursuant to the full exercise of the underwriters' option to purchase additional shares. We received net proceeds of \$134.1 million, after deducting underwriters' discounts and commissions. In addition, \$0.7 million of legal, accounting and other offering costs incurred in connection with the sale of our common stock in the public offering, were capitalized and offset against the proceeds received.

On November 22, 2021, we completed another secondary public offering in which certain selling stockholders, including EQT, sold 10,000,000 shares of our common stock. We did not offer any common stock in this transaction and did not receive any proceeds from the sale of the shares of common stock by the selling stockholders. We incurred costs of \$0.6 million, recorded in general and administrative expenses, in relation to the secondary public offering.

Key Factors Affecting Our Performance

We believe that the growth of and future success of our business depends on many factors. While each of these factors presents significant opportunities for our business, they also pose important challenges that we must successfully address to sustain our growth and improve results of operations.

Customer Retention and Expansion

Our future operating results depend, in part, on our ability to successfully enter new markets, increase our customer base, and retain and expand our relationships with existing customers. We monitor two key performance indicators to evaluate retention and expansion: new bookings and renewal rates.

- **Bookings:** Our new bookings represent a signed contract or purchase order where there is sufficient or reasonable certainty about the customer's ability and intent to fund and commence the software and/or services. Bookings vary from period to period depending on numerous factors, including the overall health of the biopharmaceutical industry, regulatory developments, industry consolidation, and sales performance. Bookings have varied and will continue to vary significantly from quarter to quarter and from year to year.
- **Renewal Rates:** Our renewal rates measure the percentage of software customers who renew their licenses or subscriptions at the end of the license or subscription periods. The renewal rate is based on revenues and excludes the effect of price increases or expansions.

The table below summarizes our quarterly bookings and renewal rate trends:

	2022 Q1	2021 Q1
Bookings (in millions)	\$ 108.5	\$ 81.9
Renewal Rate	92 %	92 %

Investments in Growth

We have invested and intend to continue to invest in expanding the breadth and depth of our solutions, including through acquisitions and international expansion. We expect to continue to invest (i) in scientific talent to expand our ability to deliver solutions across the drug development spectrum; (ii) in sales and marketing to promote our solutions to new and existing customers and in existing and expanded geographies; (iii) in research and development to support existing solutions and innovate new technology; and (iv) in other operational and administrative functions to support our expected growth. We expect that our headcount will increase over time and also expect our total operating expenses will continue to increase over time, albeit, at a rate lower than revenue growth.

Our Operating Environment

The acceptance of model-informed biopharmaceutical discovery and development by regulatory authorities affects the demand for our products and services. Support for the use of biosimulation in discovery and development from regulatory bodies, such as the FDA and EMA, has been critical to its rapid adoption by the biopharmaceutical industry. There has been a steady increase in the recognition by regulatory and academic institutions of the role that modeling and simulation can play in the biopharmaceutical development and approval process, as demonstrated by new regulations and guidance documents describing and encouraging the use of modeling and simulation in the biopharmaceutical discovery, development, testing, and approval process, which has directly led to an increase in the demand for our services. Changes in government or regulatory policy, or a reversal in the trend toward increasing the acceptance of and reliance upon in silico data in the drug approval process, could decrease the demand for our products and services or lead regulatory authorities to cease use of, or to recommend against the use of, our products and services.

Governmental agencies throughout the world, but particularly in the United States where the majority of our customers are based, strictly regulate the biopharmaceutical development process. Our business involves helping biopharmaceutical companies strategically and tactically navigate the regulatory approval process. New or amended regulations are expected to result in higher regulatory standards and often additional revenues for companies that service these industries. However, some changes in regulations, such as a relaxation in regulatory requirements or the introduction of streamlined or expedited approval procedures, or an increase in regulatory requirements that we have difficulty satisfying or that make our regulatory strategy services less competitive, could eliminate or substantially reduce the demand for our regulatory services.

Competition

The market for our biosimulation products and related services for the biopharmaceutical industry is competitive and highly fragmented. In biosimulation software, we compete with other scientific software providers, technology companies, in-house development by biopharmaceutical companies, and certain open source solutions. In the technology-driven services market, we compete with specialized companies, in-house teams at biopharmaceutical companies, and academic and government institutions. In some standard biosimulation services, and in regulatory and market access, we also compete with contract research organizations. Some of our competitors and potential competitors have longer operating histories in certain segments of our industry than we do and could have greater financial, technical, marketing, R&D, and other resources. Some of our competitors offer products and services directed at more specific markets than those we target, enabling these competitors to focus a greater proportion of their efforts and resources on those specific markets. Some competing products are developed and made available at lower cost by government organizations and academic institutions, and these entities may be able to devote substantial resources to product development. Some clinical research organizations or technology companies may decide to enter into or expand their offerings in the biosimulation area, whether through acquisition or internal development. We also face competition from open source software initiatives, in which developers provide software and intellectual property free of charge, such as R and PK-Sim software. In addition, some of our customers spend significant internal resources in order to develop their own solutions.

Impact of COVID-19

The continued spread of COVID-19 may adversely impact our business, financial condition or results of operations as a result of increased costs, negative impacts to our workforce, delay or cancellation of projects due to disruption of our customers' clinical trials, or a sustained economic downturn. Although the spread of the virus has subsided in much of the world, the extent to which the COVID-19 pandemic may continue to impact the global economy and our business in the future remains uncertain and cannot be predicted.

As of March 31, 2022, we believe there have been and will be short-term but immaterial impacts on our business due to the Omicron variant of COVID-19. The presence of the Omicron variant has caused a slowdown in closing out clinical trials and delays in regulatory services projects. Furthermore, the increase in COVID-19 cases associated with the Omicron variant has impacted our and our customer's workforce, resulting in unexpected but temporary reductions in employee utilization rates due to illness. We believe that these are transitory impacts that we are well-equipped to manage going forward.

Non-GAAP Measures

Management uses various financial metrics, including total revenues, income from operations, net income, and certain metrics that are not required by, or presented in accordance with, GAAP, such as Adjusted EBITDA, Adjusted Net Income, and Adjusted Diluted Earnings Per Share, to measure and assess the performance of our business, to evaluate the effectiveness of our business strategies, to make budgeting decisions, to make certain compensation decisions, and to

compare our performance against that of other peer companies using similar measures. We believe that presentation of the GAAP and the non-GAAP metrics in this filing will aid investors in understanding our business.

Management measures operating performance based on Adjusted EBITDA defined for a particular period as net income (loss) excluding interest expense, provision (benefit) for income taxes, depreciation and amortization expense, intangible asset amortization, equity-based compensation expense, acquisition and integration expense, and other items not indicative of our ongoing operating performance. Management also measures operating performance based on Adjusted Net Income defined for a particular period as net income (loss) excluding, equity-based compensation expense, amortization of acquisition-related intangible assets, acquisition and integration expense, and other items not indicative of our ongoing operating performance. Further, management measures operating performance based on Adjusted Diluted Earnings Per Share defined for a particular period as Adjusted Net Income divided by the weighted-average diluted common shares outstanding.

We believe Adjusted EBITDA, Adjusted Net Income, and Adjusted Diluted Earnings Per Share are helpful to investors, analysts, and other interested parties because they can assist in providing a more consistent and comparable overview of our operations across our historical periods. In addition, these measures are frequently used by analysts, investors, and other interested parties to evaluate and assess performance.

Adjusted EBITDA, Adjusted Net Income, and Adjusted Diluted Earnings Per Share are non-GAAP measures and are presented for supplemental purposes only and should not be considered as an alternative or substitute to financial information presented in accordance with GAAP. Adjusted EBITDA, Adjusted Net Income and Adjusted Diluted Earnings Per Share have certain limitations in that they do not include the impact of certain expenses that are reflected in our consolidated statements of operations that are necessary to run our business. Other companies, including other companies in our industry, may not use these measures and may calculate both differently than as presented, limiting the usefulness as a comparative measure.

The following table reconciles Net income to Adjusted EBITDA:

	THREE MONTHS ENDED MARCH 31,	
	2022	2021
	(in thousands)	
Net income ^(a)	\$ 2,210	\$ 1,052
Interest expense ^(a)	3,228	3,928
Interest income ^(a)	(11)	(70)

Adjusted Net Income	<u>\$ 16,929</u>	<u>\$ 14,424</u>

The following table reconciles Diluted Earnings Per Share to Adjusted Diluted Earnings Per Share:

	THREE MONTHS ENDED MARCH 31,	
	2022	2021
Net income ^(a)	\$ 0.01	\$ 0.01
Currency (gain) loss ^(a)	—	—
Equity-based compensation expense ^(b)	0.05	0.03
Amortization of acquisition-related intangible assets ^(c)	0.07	0.06
Acquisition-related expenses ^(d)	—	0.01
Transaction-related expenses ^(e)	—	—
Loss on disposal of fixed assets ^(f)	—	—
First-year Sarbanes-Oxley implementation costs ^(g)	—	—
Income tax expense impact of adjustments ^(h)	(0.02)	(0.02)
Adjusted Diluted Earnings Per Share	<u>\$ 0.11</u>	<u>\$ 0.09</u>
Diluted weighted average common shares outstanding	155,936,953	147,160,084
Effect of potentially dilutive shares outstanding ⁽ⁱ⁾	3,223,368	4,924,661
Diluted weighted average common shares outstanding	<u>159,160,321</u>	<u>152,084,745</u>

(a) Represents amounts as determined under GAAP.

(b) Represents expense related to equity-based compensation. Equity-based compensation has been, and will continue to be for the foreseeable future, a recurring expense in our business and an important part of our compensation strategy.

(c) Represents amortization costs associated with acquired intangible assets in connection with business acquisitions.

(d) Represents costs associated with mergers and acquisitions and any retention bonuses pursuant to the acquisitions.

(e) Represents costs associated with our public offerings that are not capitalized.

(f) Represents the gain/loss related to disposal of fixed assets.

(g) Represents the first-year Sarbanes-Oxley costs for accounting and consulting fees related to the Company's preparation to comply with Section 404 of the Sarbanes-Oxley Act.

(h) Represents the income tax effect of the non-GAAP adjustments calculated using the applicable statutory rate by jurisdiction.

(i) Represents potentially dilutive shares that were included from the Company's GAAP diluted weighted average common shares outstanding.

Components of Results of Operations

Revenues

Our business generates revenue from the sales of software products and delivery of consulting services.

- **Software.** Our software business generates revenues from software licenses, software subscriptions and software maintenance as follows:
 - *Software licenses:* We recognize revenue for software license fees up front, upon delivery of the software license.
 - *Software subscription:* Subscription revenue consists of subscription fees to provide our customers access to and related support for our cloud-based solutions. We recognize subscription fees ratably over the term of the subscription, usually one to three years. Any subscription revenue paid upfront that is not recognized in the current period is included in deferred revenue in our consolidated balance sheet until earned.
 - *Software maintenance:* Software maintenance revenue includes fees for providing updates and technical support for software offerings. Software maintenance revenue is recognized ratably over the contract term, usually one year.
- **Services.** Our services business generates revenues primarily from technology-driven services and professional services, which include software implementation services. Our service arrangements are time and materials, fixed fee, or prepaid. Revenues are recognized over the time services are performed for time and materials, and over time by estimating progress to completion for fixed fee and prepaid services.

Cost of Revenues

Cost of revenues consists primarily of employee related expenses, equity-based compensation, the costs of third-party subcontractors, travel costs, distributor fees, amortization of capitalized software and allocated overhead. We may add or expand computing infrastructure service providers, make additional investments in the availability and security of our solutions, or add resources to support our growth.

Operating Expenses

- **Sales and Marketing.** Sales and marketing expense consists primarily of employee-related expenses, equity-based compensation, sales commissions, brand development, advertising, travel-related expenses and industry conferences and events. We plan to continue to invest in sales and marketing to increase penetration of our existing client base and expand to new clients.
- **Research and Development.** Research and development expense accounts for a significant portion of our operating expenses. We recognize expenses as incurred. Research and development expenses consist primarily of employee-related expenses, equity-based compensation, third-party consulting, allocated software costs and tax credits. We plan to continue to invest in our R&D efforts to enhance and scale our software product offerings by development of new features and increased functionality.
- **General and Administrative.** General and administrative expense consists of personnel-related expenses associated with our executive, legal, finance, human resources, information technology, and other administrative functions, including salaries, benefits, bonuses, and equity-based compensation. General and administrative expense also includes professional fees for external legal, accounting and other consulting services, allocated overhead costs, and other general operating expenses.

We expect to increase the size of our general and administrative staff to support the anticipated growth of our business. As a public company, we expect to incur significant expenses on an ongoing basis that we did not incur as a private company. Those costs include additional director and officer liability insurance expenses, as well as third-party and internal resources related to accounting, auditing, SOX compliance, legal, and investor and public relations expenses. As a result, we expect the dollar amount of our general and administrative expense to increase for the foreseeable future. Excluding public company expenses, we expect general and administrative expense to grow at a rate lower than revenues.

- **Intangible Asset Amortization.** Intangible asset amortization consists primarily of amortization expense related to intangible assets recorded in connection with acquisitions and amortization of capitalized software development costs.
- **Depreciation and Amortization Expense.** Depreciation and amortization expense consists of depreciation of property and equipment and amortization of leasehold improvements.

Other Expenses

- **Interest Expense.** Interest expense consists primarily of interest expense associated with the Credit Agreement, including amortization of debt issuance costs and discounts. We expect interest expense to decline as a result of lower outstanding indebtedness going forward.
- **Miscellaneous.** Miscellaneous expense consists of miscellaneous non-operating expenses primarily comprised of foreign exchange transaction gains and losses.
- **Provision for (Benefit from) Income Taxes.** Provision for (benefit from) income taxes consists of U.S. federal and state income taxes and income taxes in certain foreign jurisdictions in which we conduct business. We expect income tax expense to increase over time as the Company continues to grow net income.

Acquisitions

On March 2, 2021, we completed a transaction which qualified as a business combination for a total consideration of \$2.7 million. The business combination was not material to our consolidated financial statements. Based on the Company's preliminary purchase price allocation, approximately \$1.2 million, \$0.1 million and \$1.2 million of the purchase price was assigned to customer relationships, non-compete agreements and goodwill, respectively.

On June 7, 2021, we completed a transaction which qualified as a business combination for a total consideration of \$15.2 million. The business combination was not material to our consolidated financial statements. Based on the Company's preliminary purchase price allocation, approximately \$7.4 million and \$4.7 million of the purchase price was assigned to customer relationships and goodwill, respectively.

On October 1, 2021, we completed the acquisition of 100% of the equity of Pinnacle for a total consideration of \$339.1 million, consisting of cash \$266.3 million (\$246.9 million net with cash acquired from the acquisition) and 2,239,717 shares of restricted common stock of the Company. Based on the Company's preliminary purchase price allocation, approximately \$15.8 million, \$103.0 million, \$24.6 million and \$183.9 million of the purchase price was assigned to trademark, acquired software, customer relationships, and goodwill, respectively. Pinnacle has been included in our consolidated results of operations since the date of acquisition.

On January 3, 2022, we completed the acquisition of Integrated Nonclinical Development Solutions, Inc., a company that provides the SEND Explorer software and drug development consulting. This acquisition, for a total consideration of \$8,148, qualified as a business combination. The business combination was not material to the Company's condensed consolidated financial statements. Based on the our preliminary purchase price allocation, approximately \$2.5 million,

\$0.9 million and \$2.9 million of the purchase price was assigned to customer relationships, acquired software, and goodwill, respectively.

For more information about our acquisitions, see NOTE 5. “Business Combinations” in the notes to the Condensed Consolidated Financial Statements.

Results of Operations

We have included the results of operations of acquired companies in our consolidated results of operations from the date of their respective acquisitions, which impacts the comparability of our results of operations when comparing results for the three months ended March 31, 2022 to the three months ended March 31, 2021.

Three Months Ended March 31, 2022 Versus Three Months Ended March 31, 2021

The following table summarizes our unaudited statements of operations data for the three months ended March 31, 2022 and 2021:

Revenues

	THREE MONTHS ENDED MARCH 31,		CHANGE	
	2022	2021 (in thousands)	\$	%
Software	\$ 29,193	\$ 21,904	\$ 7,289	33 %
Services	52,358	44,814	7,544	17 %
Total revenues	\$ 81,551	\$ 66,718	\$ 14,833	22 %

Revenues increased \$14.8 million, or 22%, to \$81.6 million for the three months ended March 31, 2022 as compared to the same period in 2021. Excluding \$6.0 million revenue from Pinnacle 21, which was acquired in late 2021, the revenues increased \$8.9 million, or 13%. The overall increase in revenues was primarily due to growth in our technology-driven services and software product offerings from strong renewal rates, client expansion, and new customers as well as business acquisitions.

Software revenues increased \$7.3 million, or 33%, to \$29.2 million for the three months ended March 31, 2022 as compared to the same period in 2021. Excluding \$5.6 million revenue from Pinnacle 21, the revenues from software increased \$1.7 million, or 8%. The overall growth is primarily attributable to maintaining high net revenue retention rates and renewal rates for our core software products, growth from acquisitions and new customers.

Services revenues increased \$7.5 million, or 17%, to \$52.4 million for the three months ended March 31, 2022 as compared to the same period in 2021. The growth in overall services revenue is primarily attributable to strong growth in biosimulation and regulatory services from client expansions and new customers.

Cost of Revenues

	THREE MONTHS ENDED MARCH 31,		CHANGE	
	2022	2021 (in thousands)	\$	%
Cost of revenues	\$ 32,789	\$ 26,016	\$ 6,773	26 %

Cost of revenues increased by \$6.8 million, or 26%, to \$32.8 million for the three months ended March 31, 2022 as compared to the same period in 2021. The increase was primarily due to a \$4.5 million increase in employee-related costs resulting from billable head count growth, a \$1.7 million increase in intangible assets amortization, a \$0.9 million increase in stock-based compensation cost, and a \$0.7 million increase related to cost of licenses and other operating expenses, partially offset by a \$1.2 million decrease in consulting and professional services.

Sales and Marketing Expenses

	THREE MONTHS ENDED MARCH 31,		CHANGE	
	2022	2021 (in thousands)	\$	%
Sales and marketing	\$ 6,111	\$ 3,752	\$ 2,359	63 %
% of total revenues	7 %	6 %		

Sales and marketing expenses increased by \$2.4 million, or 63%, to \$6.1 million for the three months ended March 31, 2022 as compared to the same period in 2021. Sales and marketing expenses increased primarily due to a \$1.8 million increase in employee-related costs resulting from head count growth, a \$0.3 million increase in stock based compensation cost, and a \$0.3 million increase in professional and consulting costs, and other marketing costs.

Research and Development Expenses

	THREE MONTHS ENDED MARCH 31,		CHANGE	
	2022	2021 (in thousands)	\$	%
Research and development	\$ 7,548	\$ 4,706	\$ 2,842	60 %
% of total revenues	9 %	7 %		

Research and development expenses increased by \$2.8 million, or 60%, to \$7.5 million for the three months ended March 31, 2022 as compared to the same period in 2021. The increase in R&D expenses was primarily due to a \$2.8 million increases in employee-related costs primarily resulting from head count growth and a \$1.0 million increase in stock-based compensation cost, partially offset by a \$1.0 million increase in capitalized cost in research and development.

General and Administrative Expenses

	THREE MONTHS ENDED MARCH 31,		CHANGE	
	2022	2021 (in thousands)	\$	%
General and administrative	\$ 18,339	\$ 16,562	\$ 1,777	11 %
% of total revenues	22 %	25 %		

General and administrative expenses increased by \$1.8 million, or 11%, to \$18.3 million for the three months ended March 31, 2022 as compared to the same period in 2021. The increase in general and administrative expenses was primarily due to a \$1.5 million increase in employee-related costs resulting from head count growth, a \$0.2 million increase in stock-

based compensation costs, a \$0.9 million increase in professional and consulting expenses, partially offset by a \$1.0 million decrease in acquisition related costs.

Intangible Asset Amortization

	<u>THREE MONTHS ENDED MARCH 31,</u>		<u>CHANGE</u>	
	<u>2022</u>	<u>2021</u> (in thousands)	<u>\$</u>	<u>%</u>
Intangible asset amortization	\$ 10,149	\$ 9,456	\$ 693	7 %
% of total revenues	12 %	14 %		

Intangible asset amortization expense increased by \$0.7 million, or 7%, to \$10.1 million for the three months ended March 31, 2022 as compared to the same period in 2021. The increase in intangible asset amortization expense is primarily due to increased amortization cost from the acquired intangible assets.

Depreciation and Amortization Expense

	<u>THREE MONTHS ENDED MARCH 31,</u>		<u>CHANGE</u>	
	<u>2022</u>	<u>2021</u> (in thousands)	<u>\$</u>	<u>%</u>
Depreciation and amortization	\$ 482	\$ 602	\$ (120)	(20)%
% of total revenues	1 %	1 %		

Depreciation and amortization expense of \$0.5 million was relatively flat for the three months ended March 31, 2022 as compared to the same period in 2021.

Interest Expense

	<u>THREE MONTHS ENDED MARCH 31,</u>		<u>CHANGE</u>	
	<u>2022</u>	<u>2021</u> (in thousands)	<u>\$</u>	<u>%</u>
Interest expense	\$ 3,228	\$ 3,928	\$ (700)	(18)%
% of total revenues	4 %	6 %		

Interest expense decreased by \$0.7 million, or 18%, to \$3.2 million for the three months ended March 31, 2022 as compared to the same period in 2021. The decrease in interest expense was primarily due to lower interest rate on the term loan on our credit facilities as well as the lower interest expense on the interest swap in the first quarter of 2022 compared to the same period in 2021.

Miscellaneous, net

	<u>THREE MONTHS ENDED MARCH 31,</u>		<u>CHANGE</u>	
	<u>2022</u>	<u>2021</u> (in thousands)	<u>\$</u>	<u>%</u>
Miscellaneous, net	\$ (841)	\$ 117	\$ (958)	(819)%
% of total revenues	(1)%	0 %		

Miscellaneous income increased by \$1.0 million, to \$0.8 million for the three months ended March 31, 2022 as compared to the same period in 2021. The increase in miscellaneous income was primarily due to \$0.9 million increase on foreign currency gains.

Provision for Income Taxes

	THREE MONTHS ENDED MARCH 31,		CHANGE	
	2022	2021	\$	%
	(in thousands)			
Provision for income taxes	\$ 1,536	\$ 527	\$ 1,009	191 %
Effective income tax rate	41 %	33 %		

Our income tax expense was \$1.5 million, resulting in an effective income tax rate of 41% for the three months ended March 31, 2022 as compared to income tax expense of \$0.5 million, or an effective income tax rate of 33%, for the same period in 2021. Our income tax expense for the three months ended March 31, 2022 and 2021 was primarily due to the tax effects of U.S. pre-tax income, the impact of non-deductible items, and the effects of tax elections made for U.K. earnings, and the relative mix of domestic and international earnings.

Net Income

	THREE MONTHS ENDED MARCH 31,		CHANGE	
	2022	2021	\$	%
	(in thousands)			
Net income	\$ 2,210	\$ 1,052	\$ 1,158	110 %

Net income increased by \$1.2 million, or 110%, to \$2.2 million for the three months ended March 31, 2022 as compared to a net income of \$1.1 million in the same period of 2021. The \$1.2 increase in net income was primarily due to a \$14.8 million increase in total revenue and a \$1.7 decrease in other expense, partially offset by a \$6.8 million increase in cost of revenue, a \$7.5 million increase in operating expenses, and \$1.0 million increase in tax expense.

Liquidity and Capital Resources

We have consistently generated positive cash flow from operations, providing \$9.8 million and \$4.9 million as a source of funds for three month ended March 31, 2022 and 2021. Our additional liquidity comes from several sources: maintaining adequate balances of cash and cash equivalents, issuing common stock, and accessing credit facilities and revolving line of credit. The following table provides a summary of the major sources of liquidity for period ended and as of March 31 2022 and December 31, 2021.

	March 31, 2022	December 31, 2021
	(in thousands)	
Net cash from operating activities	\$ 9,803	\$ 60,388
Cash and cash equivalents ⁽¹⁾	\$ 184,315	\$ 185,797
Net proceeds from issuing common stock	\$ —	\$ 133,351
Term loan credit facilities	\$ 299,735	\$ 300,490
Revolving line of credit	\$ 100,000	\$ 100,000

(1) Cash balance as of March 31, 2022 included \$44.4 million cash and cash equivalents held outside of the United States.

Our material cash requirements from known contractual obligations are principal and interest payments of long-term debt. We also have future cash obligations \$15.6 million for lease contracts, which have remaining terms from one to six years.

The principal amount of long-term debt outstanding as of March 31, 2022 matures in the following years:

	<u>Remainder of 2022</u>	<u>2023</u>	<u>2024</u>	<u>2025</u>	<u>2026</u>	<u>TOTAL</u>
Maturities	\$ 2,265	\$ 3,020	\$ 3,020	\$ 3,020	\$ 288,410	\$ 299,735

We assess our liquidity in terms of our ability to generate adequate amounts of cash to meet current and future needs. We believe our existing sources of liquidity will be sufficient to meet our working capital, capital expenditures, and contractual obligations for the foreseeable future. Our expected primary uses on a short-term and long-term basis are for repayment of debt, interest payments, working capital, capital expenditures, geographic or service offering expansion, acquisitions, investments, and other general corporate purposes. We believe we will meet short and longer-term expected future cash requirements and obligations through a combination of cash flows from operating activities, available cash balances, and potential future equity or debt transactions.

Our future capital requirements, however, will depend on many factors, including funding for potential acquisitions, investments, and other growth and strategic opportunities, which could increase our cash requirements. While we believe we have, and will be able to generate, sufficient liquidity to fund our operations for the foreseeable future, our sources of liquidity could be affected by factors described under “Risk Factors” in the 2021 10K.

Cash Flows

The following table presents a summary of our cash flows for the periods shown:

	<u>THREE MONTHS ENDED MARCH 31,</u>	
	<u>2022</u>	<u>2021</u>
	(in thousands)	
Net cash provided by operating activities	\$ 9,803	\$ 4,934
Net cash used in investing activities	(8,676)	(3,458)
Net cash used in financing activities	(1,520)	(855)
Effect of foreign exchange rate changes on cash and cash equivalents, and restricted cash	(1,171)	(191)
Net (decrease) increase in cash and cash equivalents, and restricted cash	\$ (1,564)	\$ 430
Cash paid for interest	\$ 3,547	\$ 3,552
Cash paid for income taxes	\$ 2,769	\$ 1,644

Operating Activities

Our cash flows from operating activities primarily include net income adjusted for (i) non-cash items included in net income, such as provisions for credit losses, depreciation and amortization, stock-based compensation, deferred taxes and other non-cash items and (ii) changes in the balances of operating assets and liabilities. Net cash provided by operating activities in the first three months of 2022 was \$9.8 million, compared to \$4.9 million in the same period of 2021. The \$4.9 million increase in cash from operating activities was primarily due to higher profitability as well as higher noncash depreciation, amortization expenses, and stock based compensation cost.

Investing Activities

Net cash used by investing activities in the first three months of 2022 was \$8.7 million, an increase of \$5.2 million, compared to \$3.5 million in the same period of 2021. The change in investing activities was primarily due to \$4.3 million

increase in cash payments in connection with business acquisitions, \$1.3 million increase in cash utilized in capitalized software development, and capital expenditures to support our growth.

Financing Activities

Net cash used by financing activities in the first three months of 2022 was \$1.5 million, compared to \$0.9 million cash used in the same period of 2021. The \$0.7 million higher cash utilized for financing activities was primarily due to payments on interest swaps liabilities and payments of taxes on shares withheld for employee taxes in the first quarter 2022.

Indebtedness

We are a party to a Credit Agreement that originally provided for a \$250.0 million senior secured term loan and commitments under a revolving credit facility in an aggregate principal amount of \$20.0 million, with a sub-commitment for issuance of letters of credit of \$10.0 million. The term loan was originally scheduled to mature on August 14, 2024, and the commitments under the revolving credit facility was originally scheduled to mature on August 14, 2022.

In January 2018, we and the lenders amended the Credit Agreement to add incremental term loans in the amount of \$25.0 million to be used for our general corporate purposes. Additionally, in April 2018, we and the lenders amended the Credit Agreement to (i) add incremental term loans in the amount of \$40.0 million to be used for our general corporate purposes and (ii) provide a reduction of 50 basis points in the margin under the term loan. The terms of such incremental term loans were the same as the terms of our existing term loans, including in respect of maturity, and are considered an increase in the aggregate principal amount of the existing term loans outstanding under the Credit Agreement and are part of the existing term loan.

We entered into a third restated and amended loan agreement on June 17, 2021 (“Third Amendment”), which provides for, among other things, (i) the extension of the termination date applicable to the revolving credit commitments under the Credit Agreement to August 2025, (ii) the extension of the maturity date applicable to the term loans under the Credit Agreement to August 2026, and (iii) an increase of approximately \$80.0 million in commitments available under the revolving line of credit (resulting in an aggregate amount of commitments of \$100.0 million). The term loan under the Third Amendment has substantially the same terms as the existing term loans and revolving credit commitments. The Credit Agreement is collateralized by substantially all U.S. assets and stock pledges for the non-U.S. subsidiaries and contain various financial and nonfinancial covenants.

Borrowings under the Credit Agreement currently bear interest at a rate per annum equal to either (i) the Eurocurrency rate, with a floor of 0.00%, as adjusted for the reserve percentage required under regulations issued by the Federal Reserve Board for determining maximum reserve requirements with respect to Eurocurrency funding, plus an applicable margin rate of 3.50% for the term loan and between 4.00% and 3.50% for revolving credit loans, depending on the applicable first lien leverage ratio, (ii) an alternative base rate (“ABR”), with a floor of 1.00%, plus an applicable margin rate of 2.50% for the term loan or between 3.00% and 2.50% for revolving credit loans, depending on the applicable first lien leverage ratio (with the ABR determined as the greatest of (a) the prime rate, (b) the federal funds effective rate, plus 0.50%), and (iii) the Eurocurrency rate plus 1.00%.

Additionally, we are obligated to pay under the revolving credit facility (i) a commitment fee of between 0.50% and 0.25% per annum of the unused amount of the revolving credit facility, depending on the applicable first lien leverage ratio, (ii) customary letter of credit issuance and participation fees, and (iii) other customary fees and expenses of the letter of credit issuers.

All obligations under the Credit Agreement are unconditionally guaranteed by our wholly owned direct and indirect subsidiaries, subject to certain exceptions. All obligations under the Credit Agreement, and the guarantees of those obligations, are secured on a first lien basis, subject to certain exceptions, by substantially all of our assets and the assets of the other guarantors.

As of March 31, 2022, we had \$299.7 million of outstanding borrowings on the term loan, and \$100.0 million of availability under the revolving credit facility under the Credit Agreement, and outstanding letters of credit of \$0.1 million under the Credit Agreement.

As of March 31, 2022, we were in compliance with the covenants of the Credit Agreement.

Contractual Obligations and Commercial Commitments

There have been no material changes to our contractual obligations during the three months ended March 31, 2022 from those disclosed in our Annual Report on Form 10-K, except for payment made in the ordinary course of business.

Income Taxes

We recorded income tax expense of \$1.5 million for the three months ended March 31, 2022 and income tax expense of \$0.5 million for the three months ended March 31, 2021.

As of March 31, 2022, we had federal and state NOLs of approximately \$2.4 million and \$2.6 million, respectively, which are available to reduce future taxable income and expire between 2024 and 2040 and 2029 and 2039, respectively. We had federal and state R&D tax credit carryforwards of approximately \$1.5 million and \$0.4 million, respectively, to offset future income taxes, which expire between 2038 and 2041. We also had foreign tax credits of approximately \$15.1 million, which will start to expire in 2025. These carryforwards that may be utilized in a future period may be subject to limitations based upon changes in the ownership of our stock in a future period. Additionally, we carried forward foreign NOLs of approximately \$24.5 million which will start to expire in 2022, foreign research and development credits of \$0.4 million which expire in 2029, and Canadian investment tax credits of approximately \$3.8 million which expire between 2030 and 2039. Our carryforwards are subject to review and possible adjustment by the appropriate taxing authorities.

As required by Accounting Standards Codification (“ASC”) Topic 740, Income Taxes, our management has evaluated the positive and negative evidence bearing upon the realizability of our deferred tax assets, which are composed principally of NOL carryforwards, R&D credit carryforwards, investment tax credit carryforward, and foreign tax credit carryforwards. Management has determined that it is more likely than not that we will not realize the benefits of foreign tax credit carryforwards. At the foreign subsidiaries, management has determined that it is more likely than not that we will not realize the benefits of certain NOL carryforwards. As a result, a valuation allowance of \$18.2 million was recorded at December 31, 2021. As of March 31, 2022, the valuation allowance remained unchanged from December 31, 2021.

Off-Balance Sheet Arrangements

During the periods presented, we did not have, and currently we do not have, any off-balance sheet arrangements, as defined under the rules and regulations of the SEC, that have, or are reasonably likely to have, a material effect on our current or future financial condition, results of operations, liquidity, capital expenditures or capital resources.

Critical Accounting Estimates

Our accounting policies are more fully described in Note 2, “Summary of Significant Accounting Policies,” in our audited consolidated financial statements included in our Annual Report on Form 10-K for the year ended December 31, 2021. The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. We monitor estimates and assumptions on a continuous basis and update these estimates and assumptions as facts and circumstances change and new information is obtained. Actual results could differ materially from those estimates and assumptions. We discussed the accounting policies that we believe are most critical to the portrayal of our

results of operations and financial condition and require management's most difficult, subjective and complex judgments in Part II, Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations," in our Annual Report on 2021 Form 10-K for the year ended December 31, 2021. There were no significant changes to our critical accounting estimates during the three months ended March 31, 2022.

Recently Adopted and Issued Accounting Standards

We have reviewed all recently issued standards and have determined that, other than as disclosed in Note 2 to our condensed consolidated financial statements appearing elsewhere in this Quarterly Report, such standards will not have a material impact on our condensed consolidated financial statements or do not otherwise apply to our operations.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

For information regarding our exposure to certain market risks, see "Quantitative and Qualitative Disclosures about Market Risk," in Part II, Item 7A of the Company's Annual Report on Form 10-K for the year ended December 31, 2021. There were no material changes to the Company's market risk exposure during the three months ended March 31, 2022.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, we evaluated the effectiveness of the design and operation of our disclosure controls and procedures pursuant to Rule 13a-15(e) and 15d-15(e) under the Exchange Act as of the end of the period covered by this report. Our disclosure controls and procedures are designed to ensure that information required to be disclosed in the reports we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management, including the Chief Executive Officer and the Chief Financial Officer, to allow timely decisions regarding required disclosures. Any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objective and management necessarily applies its judgment in evaluating the cost-benefit relationship of possible controls and procedures. Based on that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were not effective as of March 31, 2022 due to a material weakness related to information technology general controls in our internal control over financial reporting. A material weakness is a deficiency, or a combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of our annual or interim financial statements will not be prevented or detected on a timely basis. This internal control deficiency was identified and reported in the section titled "Management's Annual Report on Internal Control Over Financial Reporting" in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2021, filed with the SEC on March 1, 2022.

Notwithstanding the ineffective disclosure controls and procedures and the material weakness described in Management's Annual Report on Internal Control Over Financial Reporting, our management concluded that the consolidated financial statements included in this report fairly present, in all material respects, the financial position of the Company as of March 31, 2022 and December 31, 2021, and the results of its operations and its cash flows for the three months ended March 31, 2022 and March 31, 2021, in conformity with accounting principles generally accepted in the United States of America.

Management's Plan to Remediate the Material Weakness

The Company outlined a remediation plan in the section titled "Management's Annual Report on Internal Control Over Financial Reporting" in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2021, filed with the SEC on March 1, 2022. The Company is committed to developing and maintaining a strong internal control environment. Management has evaluated the material weakness described above and has made significant progress

updating its design and implementation of internal controls to remediate the aforementioned control deficiency and enhance the Company's internal control environment. The remediation plan is being implemented and includes the following: (i) Implement a controlled process for the onboarding, offboarding, and access rights modifications in the application environment to ensure appropriate provisioning of rights on a least privileged basis; (ii) Document the levels of privileged access roles with specific "allowed" capabilities warranting levels of access for specific roles; (iii) Implement a quarterly log review by business owners to ensure that no privileged account access was provided and removed outside of documented service requests; (iv) Implement a controlled process for application and system level changes in the application environment to ensure appropriate understanding of the changes on financial reporting; and (v) Strengthen ownership and reporting through the IT Governance Process currently in place which will serve as the mechanism to monitor the remediation update. Management is committed to successfully implementing the remediation plan as promptly as possible, and currently expects that the remediation of this material weakness will be completed on or before September 30, 2022.

Changes in Internal Control over Financial Reporting

There was not any change in our internal control over financial reporting (as such term is defined in Rules 13a-15(f) under the Exchange Act) during period ended March 31, 2022 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II — OTHER INFORMATION

Item 1. Legal Proceedings

There have been no material changes to our legal proceedings as previously disclosed in our Annual Report on Form 10-K for the fiscal year ended December 31, 2021.

Item 1A. Risk Factors

Except as described below, there have been no significant changes from the risk factors previously disclosed in our Annual Report on Form 10-K for the year ended December 31, 2021 that we believe are material to our business, financial condition, results of operations, cash flows or growth prospects.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

None

Item 3. Defaults Upon Senior Securities

None.

Item 4. Mine Safety Disclosures

Not applicable.

Item 5. Other Information

None

Item 6. Exhibits

See Exhibit Index.

Title: Chief Financial Officer
(Principal Financial Officer)

**PERFORMANCE STOCK UNIT GRANT NOTICE
UNDER THE
CERTARA, INC.
2020 INCENTIVE PLAN**

Certara, Inc., a Delaware corporation (the “Company”), pursuant to its 2020 Incentive Plan, as it may be amended and restated from time to time (the “Plan”), hereby grants to the Participant set forth below the number of Performance Stock Units (“Performance Stock Units” or “PSUs”) set forth below. The Performance Stock Units are subject to all of the terms and conditions as set forth herein, in the Performance Stock Unit Agreement including any addendum to such agreement for the Participant’s country (the “Addendum”), as attached (together, the “Performance Stock Unit Agreement”), and in the Plan, all of which are incorporated herein in their entirety. Capitalized terms not otherwise defined herein shall have the meaning set forth in the Plan.

Participant: [•]

Date of Grant: [•]

**Number of
Performance Stock Units:** [•]

Performance Period: The three-year period comprised of the Company’s fiscal years 2022, 2023 and 2024.

Performance Conditions: Settlement of the Performance Stock Units shall be subject to satisfaction of the Performance Conditions in accordance with Appendix A, attached to this Grant Notice.

Dividend Equivalents: The Performance Stock Units shall be credited with dividend equivalent payments, as provided in Section 13(c)(iii) of the Plan.

* * *

THE PARTICIPANT DOES NOT HAVE TO ACCEPT THE PERFORMANCE STOCK UNITS. IF THE PARTICIPANT WISHES TO DECLINE THE PERFORMANCE STOCK UNITS, THE PARTICIPANT SHOULD PROMPTLY NOTIFY THE GENERAL COUNSEL OF THE COMPANY OF THE PARTICIPANT'S DECISION IN WRITING. IF THE PARTICIPANT DOES NOT PROVIDE SUCH NOTIFICATION WITHIN 60 DAYS OF GRANT, THE PARTICIPANT WILL BE DEEMED TO HAVE ACCEPTED THE PERFORMANCE STOCK UNITS ON THE TERMS AND CONDITIONS SET FORTH IN THIS PERFORMANCE STOCK UNIT GRANT NOTICE, THE PERFORMANCE STOCK UNIT AGREEMENT AND THE PLAN.

**APPENDIX A
TO THE GRANT NOTICE**

The number of PSUs that will be subject to settlement (the “Earned PSUs”) will be calculated based on achievement of the applicable Performance Conditions, as set forth below.

1. Performance Conditions

PSUs shall be bifurcated into two equal tranches: “Tranche I PSUs”, which will be subject to a Performance Condition based on Revenue Growth, and “Tranche II PSUs”, which will be subject to a Performance Condition based on Unlevered Free Cash Flow Growth, in each case, as set forth in the table below:

	Tranche I	Tranche II
<i>Performance Condition</i>	<i>Revenue Growth</i>	<i>Unlevered Free Cash Flow Growth</i>
Threshold Level of Achievement	15%	15%
Target Level of Achievement	20%	20%
Maximum Level of Achievement	25%	25%

2. Calculation of Annual Weighting Percentages

Following the last day of each applicable fiscal year during the Performance Period (or, if earlier, upon a Change in Control), the Committee shall determine the level of achievement with respect to each Performance Condition in respect of such fiscal year and calculate the “Weighting Percentage” (as set forth the table below) for such fiscal year with respect to each of the Tranche I PSUs and the Tranche II PSUs based on such level of achievement in accordance with the following table:

LEVEL OF ACHIEVEMENT	WEIGHTING PERCENTAGE
Below Threshold	0%
Threshold	50%
Target	100%
Maximum	135%

Unless otherwise determined by the Committee, if actual performance with respect to any tranche is between (i) “Threshold” and “Target” or (ii) “Target” and “Maximum” levels of achievement, the Weighting Percentage shall be determined using linear interpolation (and rounded to the nearest whole percentage point) between such numbers. In the event of a Change in Control during the Performance Period, the Committee shall determine the Weighting Percentage for the fiscal year during which such Change in Control occurs and any subsequent fiscal year during the Performance Period. When calculating the Weighted Percentage, the Committee shall have the authority to make appropriate adjustments to Revenue Growth and Unlevered Free Cash Flow Growth to account for unanticipated material changes, such as changes in accounting standards, unplanned foreign exchange impact beyond a 5% marginal impact, or Revenue attributable to acquisitions or divestitures. All determinations with respect to whether and to the extent to which a Performance Condition has been achieved and of the calculation of the Weighting Percentage (including without limitation in the event of a Change in Control) shall, in each case, be made by the Committee in its sole discretion, whose decision shall be final and binding on the Participant.

3. Calculation of Earned PSUs

Following the end of the Performance Period (and prior to the date the PSUs are settled in accordance with Section 3 of the Performance Stock Unit Agreement (the “Settlement Date”), the Committee shall determine (i) the “Final Weighting Percentage” with respect to each tranche of PSUs by taking the average of the Weighting Percentages calculated for each fiscal year of the Performance Period and (ii) the number of PSUs that become Earned PSUs, which shall equal the sum of:

- (x) the number of Tranche I PSUs *multiplied by* (y) the Final Weighting Percentage applicable to the Tranche I PSUs *multiplied by* (z) a quotient, the numerator of which is the Participant’s number of full years of employment during the Performance Period and the denominator of which is 3 (such result rounded up to the nearest whole unit); *plus*
- (x) the number of Tranche II PSUs *multiplied by* (y) the Final Weighting Percentage applicable to the Tranche II PSUs *multiplied by* (z) a quotient, the numerator of which is the Participant’s number of full years of employment during the Performance Period and the denominator of which is 3 (such result rounded up to the nearest whole unit).

Any PSUs which do not become Earned PSUs in accordance with the above formula shall be forfeited as of the date of determination.

Notwithstanding anything contained herein to the contrary, in the event of the Participant’s Termination for Cause prior to the Settlement Date, all of the Participant’s PSUs shall be forfeited as of the date of such Termination, and none of the PSUs shall become Earned PSUs.

4. Definitions

(a) “Revenue” shall mean the revenue which is publicly disclosed in (or otherwise calculated in a manner consistent with) the Company’s earnings release for the applicable fiscal year financial results, excluding for the purpose of calculating Revenue growth from the prior year (“Base Year”), all revenue resulting from any and all merger & acquisition activity occurring within the current year (“M&A Revenue”) to the extent such M&A Revenue exceeds 4% of total Revenue for such year. For purposes of calculating Revenue growth for the year following the year in which applicable M&A Revenue is recognized, such M&A Revenue will be included in the Base Year.

(b) “Revenue Growth” shall mean the one-year growth rate with respect to Revenue, which shall be expressed as a percentage (rounded to the nearest tenth of a percent).

(c) “Unlevered Free Cash Flow” shall mean with respect to the applicable fiscal year, the Company’s Adjusted EBITDA (as defined in the Company’s annual SEC filings) *minus* capital expenditures and *minus* changes in non-cash working capital, as adjusted for (i) any unplanned loss(es) or gain(s) of a non-recurring nature, such as material restructuring or reorganizations and litigation/settlement expenses, (ii) unplanned foreign exchange impact beyond a marginal impact of 5%, (iii) integration costs relating to any merger & acquisition activity, and (iv) changes in working capital accounts that are excluded in Adjusted EBITDA, such as deferred tax accounts; as determined by the Committee in its sole discretion.

(d) “Unlevered Free Cash Flow Growth” shall mean the growth rate with respect to Unlevered Free Cash Flow, which shall be expressed as a percentage (rounded to the nearest tenth of a percent).

**PERFORMANCE STOCK UNIT AGREEMENT
UNDER THE
CERTARA, INC.
2020 INCENTIVE PLAN**

Pursuant to the Performance Stock Unit Grant Notice (the “Grant Notice”) delivered to the Participant (as defined in the Grant Notice), and subject to the terms of this Performance Stock Unit Agreement including any addendum to the Performance Stock Unit Agreement for the Participant’s country (the “Addendum”) as attached (together, the “Performance Stock Unit Agreement”) and the Certara, Inc. 2020 Incentive Plan, as it may be amended and restated from time to time (the “Plan”), Certara, Inc., a Delaware corporation (the “Company”) and the Participant agree as follows. Capitalized terms not otherwise defined herein shall have the same meaning as set forth in the Plan.

1. **Grant of Performance Stock Units.** Subject to the terms and conditions set forth herein and in the Plan, the Company hereby grants to the Participant the number of Performance Stock Units provided in the Grant Notice (with the number of Performance Stock Units that become Earned PSUs representing an unfunded, unsecured right to receive one share of Common Stock upon the settlement of such PSUs). The Company may make one or more additional grants of Performance Stock Units to the Participant under this Performance Stock Unit Agreement by providing the Participant with a new grant notice, which may also include any terms and conditions differing from this Performance Stock Unit Agreement to the extent provided therein. The Company reserves all rights with respect to the granting of additional Performance Stock Units hereunder and makes no implied promise to grant additional Performance Stock Units. For purposes of the Plan, Performance Stock Units shall be deemed a Restricted Stock Unit subject to the Performance Conditions set forth in the Grant Notice.

2. **Earned PSUs.** Subject to the conditions contained herein and in the Plan, the Performance Stock Units shall become Earned PSUs as provided in the Grant Notice.

3. **Settlement of Performance Stock Units.** The Company will deliver to the Participant, without charge on March 1st of the year immediately following the last day of the Performance Period one share of Common Stock for each Earned PSU (as adjusted under the Plan, as applicable) and such Earned PSU shall be cancelled upon such delivery. The Company shall either (a) deliver, or cause to be delivered, to the Participant a certificate or certificates therefor, registered in the Participant’s name or (b) cause such shares of Common Stock to be credited to the Participant’s account at the third party plan administrator. Notwithstanding anything in this Performance Stock Unit Agreement to the contrary, the Company shall have no obligation to issue or transfer any shares of Common Stock as contemplated by this Performance Stock Unit Agreement unless and until such issuance or transfer complies with all relevant provisions of law and the requirements of any stock exchange on which the Company’s shares of Common Stock are listed for trading. Notwithstanding the terms of the Plan, “Change in Control” hereunder shall be limited to such transactions that meet the definition used for purposes of Treas. Reg. Sections 1.409A-3(a)(5) and 1.409A-3(i)(5).

4. **Treatment of Performance Stock Units Upon Termination.** Treatment of Performance Stock Units upon a Participant's Termination shall be as set forth in the Grant Notice. For purposes of the Performance Stock Units, the Participant's employment relationship will be considered terminated as of the date of the Participant's Termination (regardless of the reason for such termination and whether or not later found to be invalid or in breach of employment laws in the jurisdiction where the Participant is employed or the terms of the Participant's employment agreement, if any), and such date will not be extended by any notice period (e.g., the Participant's period of employment would not include any contractual notice period or any period of "garden leave" or similar period mandated under employment laws in the jurisdiction where the Participant is employed or the terms of the Participant's employment agreement, if any); the Committee shall have the exclusive discretion to determine when the Participant is no longer actively providing services for purposes of the Performance Stock Unit grant (including whether the Participant may still be considered to be providing service while on a leave of absence).

5. **Company; Participant.**

(a) The term "Company" as used in this Performance Stock Unit Agreement with reference to service shall include the Company and its Subsidiaries and Affiliates.

(b) Whenever the word "Participant" is used in any provision of this Performance Stock Unit Agreement under circumstances where the provision should logically be construed to apply to the executors, the administrators, or the person or persons to whom the Performance Stock Units may be transferred in accordance with Section 13(b) of the Plan, the word "Participant" shall be deemed to include such person or person.

6. **Non-Transferability.** The Performance Stock Units are not transferable by the Participant except to Permitted Transferees in accordance with Section 13(b) of the Plan. Except as otherwise provided herein, no assignment or transfer of the Performance Stock Units, or of the rights represented thereby, whether voluntary or involuntary, by operation of law or otherwise, shall vest in the assignee or transferee any interest or right herein whatsoever, but immediately upon such assignment or transfer the Performance Stock Units shall terminate and become of no further effect.

7. **Rights as Shareholder.** Subject to any dividend equivalent payments to be provided to the Participant in accordance with the Grant Notice and Section 13(c)(iii) of the Plan, the Participant or a Permitted Transferee of the Performance Stock Units shall have no rights as a shareholder with respect to any share of Common Stock underlying a Performance Stock Unit unless and until the Participant shall have become the holder of record or the beneficial owner of such share of Common Stock, and no adjustment shall be made for dividends or distributions or other rights in respect of such share of Common Stock for which the record date is prior to the date upon which the Participant shall become the holder of record or the beneficial owner thereof.

8. **Tax Withholding.**

(a) The Participant acknowledges that, regardless of any action taken by the Company or, if different, the Participant's employer (the "Employer"), the ultimate liability for all income tax, social insurance, payroll tax, fringe benefits tax, payment on account or other tax-related items related to the Participant's participation in the Plan and legally applicable to the Participant ("Tax-Related Items") is and remains the Participant's responsibility and may exceed the amount actually withheld by the Company or the Employer. The Participant further acknowledges that the Company and/or the Employer (i) make no representations or undertakings regarding the treatment of any Tax-Related Items in connection with any aspect of the Performance Stock Units, including, but not limited to, the grant or vesting of the Performance Stock Units, the subsequent sale of shares of Common Stock acquired pursuant to such settlement; and (ii)

do not commit to and are under no obligation to structure the terms of the grant or any aspect of Performance Stock Units to reduce or eliminate the Participant's liability for Tax-Related Items or achieve any particular tax result. The Participant shall not make any claim against the Company, the Employer, or their respective board, officers or employees related to Tax-Related Items arising from the Performance Stock Units. Further, if the Participant is subject to Tax-Related Items in more than one jurisdiction, the Participant acknowledges that the Company and/or the Employer (or former employer, as applicable) may be required to withhold or account for Tax-Related Items in more than one jurisdiction.

(b) Prior to the relevant taxable or tax withholding event, as applicable, the Participant agrees to make adequate arrangements satisfactory to the Company and/or the Employer to satisfy all Tax-Related Items. In this regard, the Participant authorizes the Company and/or the Employer, or their respective agents, to satisfy any applicable withholding obligations with regard to Tax-Related Items by withholding from the number of shares of Common Stock otherwise deliverable pursuant to the settlement of the Performance Stock Units a number of shares of Common Stock with a Fair Market Value, on the date that the Performance Stock Units are settled, equal to such withholding liability; *provided* that the number of such shares may not have a Fair Market Value greater than the minimum required statutory withholding liability unless determined by the Committee not to result in adverse accounting consequences. Alternatively, if the Company determines in its sole discretion that withholding shares of Common Stock is not feasible under applicable tax or securities laws or has materially adverse accounting consequences, the Participant authorizes the Company and/or the Employer, or their respective agents, at their discretion and with no obligation to do so, to satisfy any applicable withholding obligations with regard to Tax-Related Items by one or a combination of the following:

- (i) withholding from the Participant's wages or other cash compensation paid to the Participant by the Company or the Employer;
- (ii) withholding from proceeds of the sale of shares of Common Stock acquired at settlement either through a voluntary sale or through a mandatory sale arranged by the Company (on the Participant's behalf pursuant to this authorization) without further consent; and/or
- (iii) any other methods approved by the Committee and permitted by applicable laws.

(c) The Company may withhold or account for Tax-Related Items by considering statutory or other withholding rates, including minimum or maximum rates applicable in my jurisdiction(s). In the event of over-withholding, the Participant may receive a refund of any over-withheld amount in cash (with no entitlement to the equivalent in Common Stock), or if not refunded, the Participant may seek a refund from the local tax authorities. In the event of under-withholding, the Participant may be required to pay any additional Tax-Related Items directly to the applicable tax authority or to the Company and/or the Employer. If the obligation for Tax-Related Items is satisfied by withholding in shares of Common Stock, the Participant is deemed, for tax purposes, to have been issued the full number of shares of Common Stock subject to the Earned PSUs, notwithstanding that a number of the shares of Common Stock is held back solely for the purpose of paying the Tax-Related Items. The Company may refuse to issue or deliver the shares of Common Stock or the proceeds of the sale of shares of Common Stock, if the Participant fails to comply with his or her obligations in connection with the Tax-Related Items.

9. **Notice.** Every notice or other communication relating to this Performance Stock Unit Agreement between the Company and the Participant shall be in writing, which may include by electronic mail, and shall be mailed to or delivered to the party for whom it is intended at such address as may from time to time be designated by such party in a notice mailed or delivered to the other party as herein provided; *provided* that, unless and until some other address be so designated, all notices or communications by the Participant to the Company shall be mailed or delivered to the Company at its

principal executive office, to the attention of the Company's General Counsel or its designee, and all notices or communications by the Company to the Participant may be given to the Participant personally or may be mailed to the Participant at the Participant's last known address, as reflected in the Company's records.

Notwithstanding the above, all notices and communications between the Participant and any third-party plan administrator shall be mailed, delivered, transmitted or sent in accordance with the procedures established by such third-party plan administrator and communicated to the Participant from time to time.

10. **No Right to Continued Service.** This Performance Stock Unit Agreement does not confer upon the Participant any right to continue as an employee or other service provider to the Company or, if different, the Employer. The grant of Performance Stock Units is an exceptional, voluntary and one-time benefit and does not create any contractual or other right to receive any other grant of other Award (including Performance Stock Units) under the Plan in the future, or benefits in lieu of Performance Stock Units, even if Performance Stock Units have been granted in the past. The grant of the Performance Stock Units does not form or amend part of the Participant's entitlement to remuneration or benefits in terms of his or her employment or other service relationship with the Company or, if different, the Employer, if any, at any time.

11. **Nature of Grant.** In accepting the Performance Stock Units, the Participant acknowledges, understands and agrees that:

(a) the Plan is established voluntarily by the Company, it is discretionary in nature, and may be modified, amended, suspended or terminated by the Company at any time, to the extent permitted by the Plan;

(b) all decisions with respect to future Performance Stock Units or other grants, if any, will be at the sole discretion of the Company;

(c) the Participant is voluntarily participating in the Plan;

(d) the Performance Stock Units and any shares of Common Stock acquired upon settlement, and the income and value of same, are not intended to replace any pension rights or compensation;

(e) the Performance Stock Units and any shares of Common Stock acquired upon settlement, and the income and value of same, are not part of normal or expected compensation for purposes of, including, but not limited to, calculating any severance, resignation, termination, redundancy, dismissal, end-of-service payments, bonuses, long-service awards, leave-related payments, holiday pay, pension or retirement or welfare benefits or similar mandatory payments;

(f) the future value of the shares of Common Stock underlying the Performance Stock Units is unknown, indeterminable, and cannot be predicted with certainty;

(g) if the Performance Stock Units become Earned PSUs and the Participant acquires shares of Common Stock, the value of such Common Stock may increase or decrease;

(h) unless otherwise agreed with the Company in writing, the Performance Stock Units and the shares of Common Stock subject to the Performance Stock Units, and the income and value of same, are not granted as consideration for, or in connection with, the service the Participant may provide as a director of any Subsidiary;

(i) no claim or entitlement to compensation or damages shall arise from forfeiture of the Performance Stock Units resulting from a Termination (for any reason whatsoever, whether or not later found to be invalid or in breach of employment laws in the jurisdiction where the Participant is employed or rendering services or the terms of the Participant's employment or service agreement, if any);

(j) unless otherwise provided in the Plan or by the Company in its sole discretion, the Performance Stock Units and the benefits evidenced by this Performance Stock Unit Agreement do not create any entitlement to have the Performance Stock Units or any such benefits transferred to, or assumed by, another company nor to be exchanged, cashed out or substituted for, in connection with any corporate transaction affecting the shares of Common Stock;

(k) neither the Company nor the Employer shall be liable for any foreign exchange rate fluctuation between the Participant's local currency and the United States Dollar that may affect the value of the Performance Stock Units or of any amounts due to the Participant pursuant to the settlement of the Performance Stock Units or the subsequent sale of any shares of Common Stock acquired upon settlement; and

(l) the Company is not providing any tax, legal or financial advice, nor is the Company making any recommendations regarding the Participant's participation in the Plan or the Participant's acquisition or sale of the shares of Common Stock. The Participant should consult with his or her personal tax, legal and financial advisors regarding his or her participation in the Plan before taking any action related to the Plan.

12. **Data Privacy.**

The Company is located at 100 Overlook Center, Suite 101 Princeton, New Jersey 08540, USA and grants employees of the Company, the opportunity to participate in the Plan, at the Company's sole discretion. If the Participant would like to participate in the Plan, the Participant understands that he or she should review the following information about the Company's data processing practices and declare his or her consent.

(a) **Data Collection and Usage.** *The Company collects, processes and uses the Participant's personal data, including, but without limitation, name, home address and telephone number, date of birth, social insurance number or other identification number (e.g., resident registration number), passport number, salary, citizenship, job title, any shares of Common Stock or directorships held in the Company, and details of all awards, canceled, vested, or outstanding in the Participant's favor, which the Company receives from the Participant or the Participant's Employer. If the Company offers the Participant the opportunity to participate in the Plan, then the Company will collect the Participant's personal data for purposes of allocating stock and implementing, administering and managing the Plan. The Company's legal basis for the processing of the Participant's personal data would be the Participant's consent.*

(b) **Stock Plan Administration Service Providers and International Data Transfers.** *The Company intends to transfer participant data to Fidelity Stock Plan Services, LLC, or its affiliate, an independent service provider based in the United States, which assists the Company with the implementation, administration and management of the Plan. In the future, the Company may select different service provider(s) and share the Participant's personal data with another company that serves in similar capacities. The Company's service providers may open an account for the Participant. The Participant will be asked to agree on separate terms and data processing practices with the applicable service providers, which, as it relates to Plan administration service provider, is a condition to the*

Participant's ability to participate in the Plan. The Company and its service providers are based in the United States. If the Participant is outside of the United States, the Participant should note that his or her country may have enacted data privacy laws that are different from the United States.

(c) **Data Retention.** *The Company will use the Participant's personal data only as long as is necessary to implement, administer and manage the Participant's participation in the Plan or as required to comply with legal or regulatory obligations, including under tax and security laws. When the Company no longer needs the Participant's personal data, the Company will remove it from its systems.*

(d) **Voluntariness and Consequences of Consent Denial or Withdrawal.** *The Participant's participation in the Plan and the Participant's grant of consent is purely voluntary. The Participant may deny or withdraw his or her consent at any time. If the Participant does not consent, or if the Participant withdraws his or her consent, the Participant cannot participate in the Plan. This would not affect the Participant's salary as an employee; the Participant would merely forfeit the opportunities associated with the Plan.*

(e) **Data Subject Rights.** *The Participant has a number of rights under data privacy laws in his or her country. Depending on where the Participant is based, his or her rights may include the right to (i) request access or copies of personal data the Company processes, (ii) rectification of incorrect data, (iii) deletion of data, (iv) restrictions on processing, (v) portability of data, (vi) to lodge complaints with competent authorities in the Participant's country, and/or (vii) a list with the names and addresses of any potential recipients of the Participant's personal data. To receive clarification regarding the Participant's rights or to exercise his or her rights, the Participant should please contact the Company at Attn: Data Privacy Office/IT, 100 Overlook Center, Suite 101 Princeton, New Jersey 08540, USA*

13. **Binding Effect.** This Performance Stock Unit Agreement shall be binding upon the heirs, executors, administrators and successors of the parties hereto.

14. **Waiver and Amendments.** Except as otherwise set forth in Section 12 of the Plan, any waiver, alteration, amendment or modification of any of the terms of this Performance Stock Unit Agreement shall be valid only if made in writing and signed by the parties hereto; *provided, however*, that any such waiver, alteration, amendment or modification is consented to on the Company's behalf by the Committee. No waiver by either of the parties hereto of their rights hereunder shall be deemed to constitute a waiver with respect to any subsequent occurrences or transactions hereunder unless such waiver specifically states that it is to be construed as a continuing waiver.

15. **Governing Law.** This Performance Stock Unit Agreement shall be construed and interpreted in accordance with the laws of the State of Delaware, without regard to the principles of conflicts of law thereof. Notwithstanding anything contained in this Performance Stock Unit Agreement, the Grant Notice or the Plan to the contrary, if any suit or claim is instituted by the Participant or the Company relating to this Performance Stock Unit Agreement, the Grant Notice or the Plan, the Participant hereby submits to the exclusive jurisdiction of and venue in the courts of Delaware.

16. **Plan.** The terms and provisions of the Plan are incorporated herein by reference. In the event of a conflict or inconsistency between the terms and provisions of the Plan and the provisions of this Performance Stock Unit Agreement (including the Grant Notice and Addendum), the Plan shall govern and control.

17. **Section 409A.** The Performance Stock Units are intended to comply with the provisions of Section 409A of the Code and the regulations promulgated thereunder, and the Grant Notice and Performance Stock Unit Agreement shall be interpreted consistent with such intent. Without limiting the foregoing, the Committee will have the right to amend the terms and conditions of the Grant Notice and/or the Performance Stock Unit Agreement in any respect as may be necessary or appropriate to comply with Section 409A of the Code or any regulations promulgated thereunder, including without limitation by delaying the payments contemplated hereunder. Notwithstanding any other provision of the Grant Notice or Performance Stock Unit Agreement to the contrary, if the Participant is a “specified employee” within the meaning of Section 409A of the Code, and is subject to U.S. federal income tax, no payments in respect of any Performance Stock Unit that would otherwise be payable upon the Participant’s “separation from service” (as defined in Section 409A of the Code) will be made to the Participant prior to the date that is six months after the date of the Participant’s “separation from service” or, if earlier, the Participant’s date of death. Following any applicable six-month delay, all such delayed payments will be paid in a single lump sum on the earliest date permitted under Section 409A of the Code that is also a business day. The Participant is solely responsible and liable for the satisfaction of all taxes and penalties under Section 409A of the Code that may be imposed on or in respect of the Participant in connection with the Performance Stock Units, and the Company will not be liable to any Participant for any payment made under the Plan or this Performance Stock Unit Agreement that is determined to result in an additional tax, penalty or interest under Section 409A of the Code, nor for reporting in good faith any payment made in respect of the Performance Stock Units as an amount includible in gross income under Section 409A of the Code.

18. **Imposition of Other Requirements.** The Company reserves the right to impose other requirements on the Participant’s participation in the Plan, on the Performance Stock Units and on any shares of Common Stock acquired under the Plan, to the extent the Company determines it is necessary or advisable for legal or administrative reasons, and to require the Participant to sign any additional agreements or undertakings that may be necessary to accomplish the foregoing.

19. **Electronic Delivery and Acceptance.** The Company may, in its sole discretion, decide to deliver any documents related to current or future participation in the Plan by electronic means. The Participant hereby consents to receive such documents by electronic delivery and agrees to participate in the Plan through an on-line or electronic system established and maintained by the Company or a third party designated by the Company.

20. **Compliance with Law.** Notwithstanding any other provisions of the Plan or this Performance Stock Unit Agreement, unless there is an exemption from any registration, qualification or other legal requirement applicable to the shares of Common Stock, the Company shall not be required to deliver any shares of Common Stock issuable in respect of Earned PSUs prior to the completion of any registration or qualification of the shares of Common Stock under any U.S. or non-U.S. local, state or federal securities or exchange control law or regulation or under rulings or regulations of the U.S. Securities and Exchange Commission (“SEC”) or of any other governmental regulatory body, or prior to obtaining any approval or other clearance from any U.S. or non-U.S. local, state or federal governmental agency, which registration, qualification or approval the Company shall, in its absolute discretion, deem necessary or advisable. The Participant understands that the Company is under no obligation to register or qualify the shares of Common Stock with the SEC or any U.S. or non-U.S. state or other securities commission or to seek approval or clearance from any governmental authority for the issuance or sale of the shares of Common Stock and the inability of the Company to obtain approval from any regulatory body having authority deemed by the Company to be necessary for the lawful issuance and sale of any shares of Common Stock pursuant to the Performance Stock Units shall relieve the Company of any liability with respect to the non-issuance or sale of the Shares as to which such approval shall not have been obtained.

21. **Language.** The Participant acknowledges that he or she is sufficiently proficient in English to understand the terms and conditions of this Performance Stock Unit Agreement. Furthermore, if the Participant has received this Performance Stock Unit Agreement, or any other document related to the Performance Stock Units and/or the Plan translated into a language other than English and if the meaning of the translated version is different than the English version, the English version will control.

22. **Addendum.** Notwithstanding any provisions in this Performance Stock Unit Agreement, the Performance Stock Units shall be subject to any special terms and conditions set forth in any Addendum to this Performance Stock Unit Agreement for the Participant's country. Moreover, if the Participant relocates to one of the countries included in the Addendum, the special terms and conditions for such country will apply to the Participant, to the extent the Committee determines that the application of such terms and conditions is necessary or advisable for legal or administrative reasons. The Addendum constitutes part of this Performance Stock Unit Agreement.

23. **Insider Trading/Market Abuse Restrictions.** Depending on the Participant's country, the Participant may be subject to insider trading restrictions and/or market abuse laws in applicable jurisdictions, which may affect the Participant's ability to, directly or indirectly, acquire, sell or attempt to sell shares of Common Stock or otherwise dispose of shares of Common Stock or rights to shares of Common Stock (*e.g.*, the Performance Stock Units) under the Plan during such times as the Participant is considered to have "inside information" regarding the Company (as defined by the laws in the applicable jurisdictions or the Participant's country). The Participant could be prohibited from (i) disclosing the inside information to any third party, which may include fellow employees; (ii) "tipping" third parties or causing them to otherwise buy or sell securities; and (iii) cancelling or amending orders the Participant placed before he or she possessed inside information. Any restrictions under these laws or regulations are separate from and in addition to any restrictions that may be imposed under any applicable Company insider trading policy. The Participant is responsible for ensuring the Participant's compliance with any applicable restrictions and is advised to speak with his or her personal legal advisor on this matter.

24. **Exchange Control, Tax And / Or Foreign Asset/Account Reporting.** The Participant acknowledges that, depending on his or her country, the Participant may be subject to foreign asset/account, exchange control and/or tax reporting requirements as a result of the acquisition, holding and/or transfer of shares of Common Stock or cash derived from his or her participation in the Plan, in, to and/or from a brokerage/bank account or legal entity located outside the Participant's country. The applicable laws of the Participant's country may require that the Participant report such accounts, assets, the balances therein, the value thereof and/or the transactions related thereto to the applicable authorities in such country. The Participant acknowledges that he or she is responsible for ensuring compliance with any applicable foreign asset/account, exchange control and tax reporting requirements and is advised to consult his or her personal legal advisor on this matter.

25. **Severability.** It is the desire and intent of the parties hereto that the provisions of this Performance Stock Unit Agreement be enforced to the fullest extent permissible under the laws and public policies applied in each jurisdiction in which enforcement is sought. Accordingly, if any particular provision of this Performance Stock Unit Agreement shall be adjudicated by a court of competent jurisdiction to be invalid, prohibited or unenforceable for any reason, such provision, as to such jurisdiction, shall be ineffective, without invalidating the remaining provisions of this Performance Stock Unit Agreement or affecting the validity or enforceability of such provision in any other jurisdiction. Notwithstanding the foregoing, if such provision could be more narrowly drawn so as not to be invalid, prohibited or unenforceable in such jurisdiction, it shall, as to such jurisdiction, be so narrowly drawn, without invalidating the remaining provisions of this Performance Stock Unit Agreement or affecting the validity or enforceability of such provision in any other jurisdiction.

26. **Entire Agreement.** This Performance Stock Unit Agreement (including the Addendum), the Grant Notice and the Plan constitute the entire agreement of the parties hereto in respect of the subject matter contained herein and supersede all prior agreements and understandings of the parties, oral and written, with respect to such subject matter.

**ADDENDUM TO THE
PERFORMANCE STOCK UNIT GRANT NOTICE
UNDER THE
CERTARA, INC.
2020 INCENTIVE PLAN**

Capitalized terms used but not defined in this Addendum have the meanings set forth in the Plan and/or Agreement.

Terms and Conditions

This Addendum includes additional terms and conditions that govern the Performance Stock Units granted to the Participant under the Plan if the Participant resides and/or works in one of the countries listed below.

If the Participant is a citizen or resident of a country other than the one in which he or she is currently residing and/or working or transfers to another country after the grant of the Performance Stock Units, or is considered a resident of another country for local law purposes, the Company shall, in its sole discretion, determine to what extent the terms and conditions contained herein shall apply to the Participant under these circumstances.

Notifications

This Addendum also includes information regarding exchange controls and certain other issues of which the Participant should be aware with respect to his or her participation in the Plan. The information is based on the securities, exchange control and other laws in effect in the respective countries as of December 2020.

Such laws are often complex and change frequently. As a result, the Company strongly recommends that the Participant not rely on the information in this Addendum as the only source of information relating to the consequences of the Participant's participation in the Plan because the information may be out of date at the time that the Performance Stock Units become Earned PSUs or at the time the Participant sells shares of Common Stock acquired under the Plan.

The information contained herein is general in nature and may not apply to the Participant's particular situation and the Company is not in a position to assure the Participant of any particular result.

Accordingly, the Participant is advised to seek appropriate professional advice as to how the relevant laws in the Participant's country may apply to his or her situation.

If the Participant is a citizen or resident of a country other than the one in which he or she is currently residing and/or working or transfers to another country after the grant of the Performance Stock Units, or is considered a resident of another country for local law purposes, the information contained herein may not be applicable to the Participant in the same manner.

CANADA

Terms and Conditions

Performance Stock Units Payable Only in Shares. Notwithstanding Section 3 of the Agreement, the grant of the Performance Stock Units does not provide any right for the Participant to receive a cash payment, and settlement of the Performance Stock Units is payable only in shares of Common Stock.

The following provisions will apply to Participants who are residents of Quebec:

Language Consent. The parties acknowledge that it is their express wish that the Performance Stock Unit Agreement, as well as all documents, notices and legal proceeds entered into, given or instituted pursuant hereto or relating directly or indirectly hereto, be drawn up in English.

Consentement relatif à la langue utilisée: *Les parties reconnaissent avoir exigé la rédaction en anglais de cette convention, ainsi que de tous documents, avis et procédures judiciaires, exécutés, donnés ou intentés en vertu de, ou liés directement ou indirectement à, la présente convention.*

Data Privacy Notice. This provision supplements Section 12 of the Performance Stock Unit Agreement:

The Participant hereby authorizes the Company and the Company's representatives to discuss with and obtain all relevant information from all personnel, professional or not, involved in the administration and operation of the Plan. The Participant further authorizes the Employer and the Company to disclose and discuss the Plan with their respective advisors. The Participant further authorizes the Employer, and the Company to record such information and to keep such information in the Participant's employee file.

Notifications

Securities Law Notification. The Participant acknowledges that he or she is permitted to sell Shares acquired under the Plan, provided the sale of the Shares acquired under the Plan takes place outside of Canada.

Foreign Asset/Account Reporting Notification. The Participant is required to report any foreign specified property (including shares of Common Stock acquired under the Plan) with a value exceeding C\$100,000 on Form T1135 (Foreign Income Verification Statement) on an annual basis. The statement is due at the same time as the Participant's annual tax return. The Performance Stock Units must be reported (generally at a nil cost) if the \$100,000 cost threshold is exceeded because of other foreign specified property the Participant holds at any time during the year. If Shares are acquired, their cost generally is the adjusted cost base ("ACB") of the Shares. The ACB ordinarily would equal the fair market value of the shares of Common Stock at the time of acquisition, but if the Participant owns other shares of Common Stock, this ACB may have to be averaged with the ACB of the other shares of Common Stock. The form must be filed by April 30 of the following year. The Participant is strongly advised to check with his or her personal advisor regarding the Participant's reporting obligations.

FRANCE

Terms and Conditions

Performance Stock Units Not Tax-Qualified. The Participant understands that the Performance Stock Units are not intended to be French tax-qualified.

Language Consent. By accepting the Award, the Participant confirms that he or she has read and understood the documents relating to the Performance Stock Units (the Grant Notice, the Plan, and the Performance Stock Unit Agreement) which were provided in the English language. The Participant accepts the terms of these documents accordingly.

Consentement relatif à la langue utilisée: *En acceptant l'Attribution, le Bénéficiaire confirme qu'il ou qu'elle a lu et compris les documents afférents aux Attributions Gratuites d'Actions (la Notification d'Attribution, le Plan et les Termes de l'Attribution, ainsi que la présente Annexe) qui sont produits en langue anglaise. Le Bénéficiaire accepte les termes de ces documents en connaissance de cause.*

NOTIFICATIONS

Foreign Asset/Account Reporting Notification. If the Participant retains shares of Common Stock acquired under the Plan outside of France or maintains a foreign bank account, the Participant is required to report such to the French tax authorities when filing his or her annual tax return. Further, French residents with foreign account balances exceeding €1,000,000 may have additional monthly reporting obligations.

GERMANY

Notifications

Exchange Control Notification. Cross-border payments in excess of €12,500 (including transactions made in connection with the sale of securities) must be reported monthly to the German Federal Bank (*Bundesbank*). If the Participant makes or receives a payment in excess of this amount in connection with the Participant's participation in the Plan, the Participant must report the payment to Bundesbank electronically using the "General Statistics Reporting Portal" ("*Allgemeines Meldeportal Statistik*") available via Bundesbank's website (www.bundesbank.de).

Foreign Asset/Account Reporting Notification. If the acquisition of shares of Common Stock under the Plan leads to a "qualified participation" at any point during the calendar year, the Participant understands that he or she will need to report the acquisition when the Participant files his or her tax return for the relevant year. A qualified participation is attained if (i) the value of the shares of Common Stock acquired exceeds a certain threshold or (ii) in the unlikely event the Participant holds shares of Common Stock exceeding a certain threshold of the Company's total Common Stock. However, provided the shares of Common Stock are listed on a recognized stock exchange (*e.g.*, the Nasdaq Stock Market) and the Participant owns less than 1% of the Company, this requirement will not apply. The Participant should consult with his or her personal tax advisor to ensure the Participant complies with applicable reporting obligations.

INDIA

Notifications

Exchange Control Notification. It is the Participant's responsibility to comply with any applicable exchange control regulations in India. The Participant must repatriate the proceeds from the sale of shares of Common Stock or the receipt of any dividends (if applicable) to India within a certain time period after receipt. The Participant must retain the foreign inward remittance certificate received from the bank where the foreign currency is deposited in the event that the Reserve Bank of India or the Employer requests proof of repatriation. It is the Participant's responsibility to comply with these requirements.

Foreign Asset/Account Reporting Notification. The Participant is required to declare any foreign bank accounts for which Participant has signing authority and any foreign financial assets (including shares of

Common Stock acquired under the Plan) in his or her annual tax return. It is the Participant's responsibility to comply with this reporting obligation and the Participant should consult his or her personal advisor in this regard.

ITALY

Terms and Conditions

Plan Document Acknowledgment. In accepting the grant of Performance Stock Units, the Participant acknowledges that they have received a copy of the Plan and the Performance Stock Unit Agreement and have reviewed the Plan and the Performance Stock Unit Agreement in their entirety and fully understand and accept all provisions of the Plan and the Performance Stock Unit Agreement. The Participant further acknowledge that they have read and specifically and expressly approve the following section of the Performance Stock Unit Agreement: Earned PSUs, Settlement of Performance Stock Units, Treatment of Performance Stock Units Upon Termination, Tax Withholding, Governing Law, Imposition of Other Requirements, Compliance with Law, and Data Privacy.

Notifications

Foreign Asset / Account Reporting. Italian residents who, at any time during the fiscal year, hold foreign financial assets (*e.g.*, cash, shares of Common Stock, etc.) which may generate income taxable in Italy are required to report such investments or assets on their annual tax returns (UNICO Form, RW Schedule) or on a special form if no tax return is due. The same reporting duties apply to Italian residents who are beneficial owners of the foreign financial assets pursuant to Italian money laundering provisions, even if they do not directly hold the foreign asset abroad.

Tax on Foreign Financial Assets. The value of any shares of Common Stock (and certain other foreign assets) the Participant holds outside of Italy will be subject to a foreign financial assets tax. Financial assets include shares of Common Stock acquired under the Plan. The taxable amount will be the fair market value of the financial assets assessed at the end of each calendar year.

JAPAN

Terms and Conditions

Compliance with Law. By accepting the Performance Stock Units, the Participant agrees to comply with all applicable Japanese laws and report and pay any and all applicable Tax-Related Items associated with the receipt of Performance Stock Units and any payment made to the Participant upon settlement of Performance Stock Units. The Participant acknowledges that the Japanese tax authorities are aware that employees of Japanese affiliates of U.S. companies may earn substantial income as a result of participation in an equity incentive plan, and may audit the tax returns of such employees to confirm that they have correctly reported the resulting income.

Notifications

Exchange Control Notification. Japanese residents acquiring shares of Common Stock valued at more than ¥100,000,000 in a single transaction must file a Securities Acquisition Report with the Ministry of Finance through the Bank of Japan within 20 days of the acquisition of shares of Common Stock.

Foreign Asset/Account Reporting Notification. If the Participant holds assets outside of Japan with a total net fair market value exceeding ¥50,000,000 as of December 31 (each year), the Participant is required to comply with annual tax reporting obligations with respect to such assets by March 15 of the following year. The Participant is advised to consult with a personal tax advisor to ensure compliance with applicable reporting requirements.

NETHERLANDS

There are no country-specific provisions.

PHILIPPINES

Terms and Conditions

Settlement of Performance Stock Units. Issuance of shares of Common Stock is conditioned upon the Company determining that an exemption exists or the Company securing and maintaining all necessary approvals from the Philippines Securities and Exchange Commission to permit the operation of the Plan in the Philippines, as determined by the Company in its sole discretion. If or to the extent the Company is unable to determine that a satisfactory exemption applies or the Company is unable to secure and maintain all necessary approvals, no shares of Common Stock subject to the Performance Stock Units for which an exemption cannot be obtained or a registration cannot be completed or maintained shall be issued. In this case, the Company retains the discretion to settle any Performance Stock Units in cash in an amount equal to the fair market value of the shares of Common Stock less any Tax-Related Items.

Notifications

Securities Law Notice. The offer under the Plan is being made pursuant to an exemption from registration under the Philippines Securities Regulation Code that has been approved by the Philippines Securities and Exchange Commission.

The risks of participating in the Plan include (without limitation), the risk of fluctuation in the price of the shares of Common Stock on the Nasdaq Global Select Market and the risk of currency fluctuations between the U.S. Dollar and the Participant's local currency. The value of any shares of Common Stock the Participant may acquire under the Plan may decrease below the value of the shares of Common Stock at settlement (on which the Participant is required to pay taxes) and fluctuations in foreign exchange rates between the Participant's local currency and the U.S. Dollar may affect the value any amounts due to the

Participant pursuant to the subsequent sale of any shares of Common Stock acquired upon settlement. The Company is not making any representations, projections or assurances about the value of the shares of Common Stock now or in the future.

For further information on risk factors impacting the Company's business that may affect the value of the shares of Common Stock, you may refer to the risk factors discussion in the Company's Annual Report on Form 10-K and Quarterly Reports on Form 10-Q, which are filed with the U.S. Securities and Exchange Commission and are available online at www.sec.gov, as well as on the Company's website at www.certara.com. In addition, the Participant may receive, free of charge, a copy of the Company's Annual Report, Quarterly Reports or any other reports, proxy statements or communications distributed to the Company's stockholders by contacting the Company's legal department (Richard Traynor at richard.traynor@certara.com). The telephone number at the executive offices is 609-716-7900.

The Participant acknowledges that they are permitted to sell shares of Common Stock acquired under the Plan through the designated Plan broker appointed by the Company (or such other broker to whom the Participant may transfer the shares of Common Stock), provided that such sale takes place outside of the Philippines through the facilities of the Nasdaq Global Select Market on which the shares of Common Stock are listed.

POLAND

Notifications

Foreign Asset/Accounting Reporting Notification. Polish residents holding foreign securities (including shares of Common Stock acquired under the Plan) and maintaining accounts abroad must report information to the National Bank of Poland on transactions and balances of the securities and cash deposited in such accounts if the value of such transactions or balances exceeds PLN 7,000,000. If required, the reports must be filed on a quarterly basis on special forms available on the website of the National Bank of Poland.

Exchange Control Notification. If the Participant transfers funds into Poland in excess of a certain threshold in connection with the sale of shares of Common Stock under the Plan, the funds must be transferred via a bank account held at a bank in Poland. The Participant is required to retain the documents connected with a foreign exchange transaction for a period of five (5) years, as measured from the end of the tax year in which such transaction occurred.

PORTUGAL

Terms and Conditions

Consent to Receive Information in English. The Participant hereby expressly declare that they have full knowledge of the English language and have read, understood and fully accepted and agreed with the terms and conditions established in the Plan and Performance Stock Unit Agreement.

Conhecimento da Língua. *Contratado, pelo presente instrumento, declara expressamente que tem pleno conhecimento da língua inglesa e que leu, compreendeu e livremente aceitou e concordou com os termos e condições estabelecidas no Plano e no Acordo.*

Notifications

Exchange Control Information. If the Participant receives shares of Common Stock upon vesting and settlement of the Performance Stock Units, the acquisition of the shares of Common Stock should be reported to the Banco de Portugal for statistical purposes. If the shares of Common Stock are deposited with a commercial bank or financial intermediary in Portugal, such bank or financial intermediary will submit the report on the Participant's behalf. If the shares of Common Stock are not deposited with a commercial bank or financial intermediary in Portugal, the Participant is responsible for submitting the report to the Banco de Portugal.

SPAIN

Terms and Conditions

Nature of Grant. This provision supplements Section 11 of the Performance Stock Unit Agreement:

In accepting the Performance Stock Units, the Participant consents to participate in the Plan and acknowledges having received and read a copy of the Plan.

The Participant understands that the Company has unilaterally, gratuitously and discretionally decided to grant Performance Stock Units under the Plan to individuals who may be employees of the Company throughout the world. The decision is a limited decision that is entered into upon the express assumption and condition that any grant will not bind the Company. Consequently, the Participant understands that the Performance Stock Units are granted on the assumption and condition that such Performance Stock Units and any shares of Common Stock acquired under the Plan shall not become a part of any employment contract and shall not be considered a mandatory benefit, salary for any purposes (including severance compensation) or any other right whatsoever. In addition, the Participant understands that the Performance Stock Units would not granted but for the assumptions and conditions referred to above; thus, the Participant acknowledges and freely accepts that should any or all of the assumptions be mistaken or should any of the conditions not be met for any reason, then any grant of the Performance Stock Units shall be null and void.

Notifications

Exchange Control Notification. The acquisition, ownership and sale of shares of Common Stock under the Plan must be declared for statistical purposes to the Spanish *Dirección General de Comercio e Inversiones* (the “DGCI”), the Bureau for Commerce and Investments, which is a department of the Ministry of Economy and Competitiveness. Generally, the declaration must be made each January for shares of Common Stock owned as of December 31st of the prior year, by means of a D-6 form; however, if the value of the shares of Common Stock acquired or sold exceeds €1,502,530 (or if the Participant holds 10% or more of the share capital of the Company or such other amount that would entitle the Participant to join the Company’s board of directors), the declaration must be filed also within one month of the acquisition or sale, as applicable.

The Participant is required to declare electronically to the Bank of Spain any securities accounts (including brokerage accounts held abroad), foreign instruments (including any shares of Common Stock acquired under the Plan) and any transactions with non-Spanish residents (including any payments of shares of Common Stock made to the Participant by the Company), depending on the amount of the transactions during the relevant year or the balances in such accounts as of December 31st of the relevant year. Generally, the report is required on an annual basis (by January 20 of each year). The Participant should consult with his or her personal advisor to ensure that the Participant is properly complying with his or her reporting obligations.

Foreign Asset/Account Reporting Notification. If the Participant holds rights or assets (*e.g.*, shares of Common Stock or cash held in a bank or brokerage account) outside of Spain with a value in excess of €50,000 per type of right or asset (*e.g.*, shares of Common Stock, cash, etc.) as of December 31 each year, the Participant is required to report certain information regarding such rights and assets on tax form 720.

After such rights and/or assets are initially reported, the reporting obligation will only apply for subsequent years if the value of any previously-reported rights or assets increases by more than €20,000. If reporting is required, the reporting must be completed by the following March 31. The Participant should consult his or her personal tax advisor for details regarding this requirement.

Securities Law Notification. The Performance Stock Units described in this document do not qualify as securities under Spanish regulations. No “offer of securities to the public,” within the meaning of Spanish law, has taken place or will take place in the Spanish territory. The Plan, the Performance Stock Unit Agreement, and any other documents evidencing the award of Performance Stock Units have not been, nor will they be, registered with the *Comisión Nacional del Mercado de Valores* (Spanish Securities Exchange Commission), and none of those documents constitutes a public offering prospectus.

SWEDEN

Terms and Conditions

Tax Withholding. This provision supplements Section 8 of the Performance Stock Unit Agreement:

Without limiting the Company's and the Employer's authority to satisfy their obligations for Tax-Related Items as set forth in Section 8 of the Performance Stock Unit Agreement, by accepting the Performance Stock Units, the Participant authorizes the Company and/or the Employer to withhold shares of Common Stock or to sell shares of Common Stock otherwise deliverable to the Participant upon settlement of the Performance Stock Units to satisfy any Tax-Related Items, regardless of whether the Company and/or the Employer have an obligation to withhold such Tax-Related Items.

SWITZERLAND

Notifications

Securities Law Notification. Because the offer of the Performance Stock Units is considered a private offering in Switzerland; it is not subject to registration in Switzerland. Neither this document nor any other materials relating to the Performance Stock Units (i) constitute a prospectus according to articles 35 et seq. of the Swiss Federal Act on Financial Services ("FinSA"), (ii) may be publicly distributed nor otherwise made publicly available in Switzerland to any person other than the Participant or (iii) has been or will be filed with, approved or supervised by any Swiss reviewing body according to article 51 FinSA or any Swiss regulatory authority, including the Swiss Financial Market Supervisory Authority.

UNITED KINGDOM

Settlement. The following provision supplements Section 3 of the Performance Stock Unit Agreement:

Notwithstanding any discretion contained in the Plan or the Performance Stock Unit Agreement, the Performance Stock Units will not be settled in cash or a combination of cash and shares of Common Stock. The Performance Stock Units will be settled only in shares of Common Stock.

Tax Withholding. The following provision supplements Section 8 of the Performance Stock Unit Agreement:

Without limitation to Section 8 of the Performance Stock Unit Agreement, the Participant agrees to be liable for any Tax-Related Items related to the Participant's participation in the Plan and legally applicable to the Participant and hereby covenants to pay any such Tax-Related Items, as and when requested by the Employer or by Her Majesty's Revenue & Customs ("HMRC") (or any other tax authority or any other relevant authority). The Participant also agrees to indemnify and keep indemnified the Employer against any Tax-Related Items that the Employer is required to pay or withhold or have paid or will pay to HMRC (or any other tax authority or any other relevant authority) on the Participant's behalf.

Notwithstanding the foregoing, if the Participant is a director or executive officer, the Participant understands that he or she may not be able to indemnify the Company for the amount of any Tax-Related

Items not collected from or paid by the Participant, in case the indemnification could be considered to be a loan. In this case, the Tax-Related Items not collected or paid may constitute a benefit to the Participant on which additional income tax and National Insurance contributions (“NICs”) may be payable. The Participant understands that he or she will be responsible for reporting and paying any income tax due on this additional benefit directly to HMRC under the self-assessment regime and for paying to the Company and/or the Employer (as appropriate) the amount of any NICs due on this additional benefit, which may also be recovered from the Participant by any of the means referred to in Section 8 of the Performance Stock Unit Agreement.

RULE 13a-14(a) CERTIFICATION
CERTARA, INC.

CERTIFICATION OF CHIEF EXECUTIVE OFFICER (Principal Executive Officer)

I, William F. Feehery, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Certara, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of the financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's Board of Directors:
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

RULE 13a-14(a) CERTIFICATION
CERTARA, INC.

CERTIFICATION OF CHIEF FINANCIAL OFFICER (Principal Financial Officer)

I, M. Andrew Schemick, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Certara, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of the financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's Board of Directors:
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
